Sir,

Question No. (1)	Information
Details brief of “Nadi Joro Bahiyan”	<p>The National Perspective Plan (NPP) was prepared by the then Ministry of Irrigation, now Ministry of Jal Shakti in August 1980 for water resources development through inter basin transfer of water by transferring water from water surplus basins to water-deficit basins. Under the NPP, the National Water Development Agency (NWDA) has identified 30 links (16 under Peninsular Component & 14 under Himalayan Component) for preparation of Feasibility Reports (FRs). The Pre-Feasibility Report (PFR) of all the 30 links have been prepared and circulated to the concerned State Governments by the NWDA. The names of Inter Basin Water Transfer Links, names of rivers, the States concerned and Status of projects are given in Annexure -I. Four priority links under the Peninsular River Component have been identified for preparation of Detailed Project Report (DPR) viz; Ken-Betwa link project (KBLP) Phase –I & II, Damanganga-Pinjal link project, Par-Tapi-Narmada link project and Godavari-Cauvery link project.</p> <p>Also, The preparation of Pre Feasibility/ Feasibility reports of intra-state links proposed by States were included to the functions of NWDA in November, 2006 in consultation with the State Governments. NWDA has requested all the States / UTs to inform the details of intra – state links for further studies by NWDA. So far, NWDA has received 47 proposals of intra-state links from 9 States viz. Maharashtra, Gujarat, Jharkhand, Orissa, Bihar, Rajasthan, Tamil Nadu, Karnataka and Chhattisgarh. Out of these, Pre-Feasibility Reports (PFRs) of 37 intra-state links have been completed by NWDA up to June, 2019. The names of intra-state link proposals received from the state governments are given in the Annexure-II.</p>

This issues with the approval of Chief Engineer (BPMO).

Subject:- RTI Application Under RTI Act 2005 of Smt. Somarani. Dey, House NO. 55, In front of Govt. Girls Nursing Hostel, RDA Colony, Tikrapara Raipur, Chhattisgarh-492001

Ref No: I-12011/41/2019-WPP Coord. Dated 11.09.2019
A-49012/8/2019/RTI/367 dated 09/09/2019

This is in reference to the above cited letter received in this Directorate on 01/10/2019 on the above mentioned subject. Information on Point (4) and Point (12) out of the 16 Points pertains to WM Directorate and is detailed below:

Reply to Point No. 4 & 12:

Central Water Commission is monitoring live storage status of 120 reservoirs of the country on weekly basis and is issuing weekly bulletin on every Thursday. Out of these reservoirs, 44 reservoirs have hydropower benefit with installed capacity of more than 60 MW. The total live storage capacity of these 120 reservoirs is **172.06 BCM** which is about **66.74%** of the live storage capacity of 257.812 BCM which is estimated to have been created in the country. As per reservoir storage bulletin dated **03.10.2019**, live storage available in these reservoirs is **151.086 BCM**, which is **88%** of total live storage capacity of these reservoirs. However, last year the live storage available in these reservoirs for the corresponding period was **128.602 BCM** and the average of last 10 years live storage was **123.164 BCM**. Thus, the live storage available in 113 reservoirs as per **03.10.2019 Bulletin** is **117%** of the live storage of corresponding period of last year and **123%** of storage of average of last ten years.

Weekly Bulletin is also uploaded on the website of cwc.gov.in > water info > Reservoir Level & Storage Bulletin. This weekly bulletin is also shared with Crop Weather Watch Group (CWWG) of the Ministry of Agriculture and Farmers Welfare. Representatives of CWC also attend meetings conveyed by CWWG on every Friday to review agricultural activities across the country and to suggest remedial measures to states in case of distress situation. CWC regularly provides storage status of reservoirs and their analysis to the CWWG which is used as an important input.

Whenever the percentage of departure of current storage of a State goes below - 20% of Normal (Average Storage of last Ten years), Advisory is being issued to the State Govt. for judicious use of available water. Based on reservoir storage, CWC has issued advisory to the State Govts. namely Gujarat, Maharashtra, Uttar Pradesh, Andhra Pradesh, Telangana and Tamil Nadu in the month of May 2019, to Jharkhand, Karnataka and Kerala in the month of June 2019 and to Tripura & Uttarakhand in the month of July 2019 for judicious use of available water.

During 2015-16, Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) was launched by Union Government with an aim to enhance physical access of water on farm and expand cultivable area under assured irrigation, improve on farm water use efficiency, introduce sustainable water conservation practices etc. Under the PMKSY-AIBP, 99 priority projects have been identified out of ongoing 149 major

/ medium irrigation projects under AIBP with a dedicated funding mechanism to complete them in a time bound manner with the aim to be completed by Dec., 2019.

Drought Prone areas are given priority under AIBP/PMKSY. Total 54 projects benefitting drought prone areas in 11 States are part of the 99 prioritized PMKSY-AIBP projects. Government of India provides central assistance with higher funding ratio to irrigation projects situated in drought prone areas. For General category States, central share is 25% whereas for DPAP areas central share is 60%.

Ministry of Jal Shakti (erstwhile Ministry of Water Resources, RD&GR), Government of India is implementing the Scheme "RRR of water bodies" which has multiple objectives like Comprehensive improvement and restoration of water bodies thereby increasing tank storage capacity, Ground Water Recharge, Increased availability of drinking water, Improvement in agriculture/horticulture productivity, Improvement of catchment areas of tank commands, Environmental benefits through improved water use efficiency; by promotion of conjunctive use of surface and ground water, Community participation etc. The water bodies under the minor irrigation schemes which have a maximum CCA of 2000 ha (Rural water bodies) and satisfying the criteria of minimum 5 ha of water spread area in case of rural water bodies and 2-10 ha water spread area in case of urban water bodies are eligible to be included under the scheme RRR of water bodies. This is a continuing scheme since X Plan and is presently being implemented during XII Plan and onwards also.

In addition, Government of India has sanctioned a special package for completion of Irrigation Projects to address agrarian distress in Vidarbha and Marathwada and other chronically drought prone areas of Rest of Maharashtra during July, 2018. The package consists of 8 Major and Medium Irrigation (MMI) Projects approved by TAC of MoWR, RD & GR and 83 Surface Minor Irrigation (SMI) Projects. The balance estimated cost of projects of Maharashtra to be completed under this package is Rs 13651.61 Cr as on 01.04.2018, with Rs 3831.41 Cr being the Central Assistance (CA) by Government of India. On completion of the balance works of these projects, additional Irrigation Potential of 3.77 Lakh Ha would be created. Latur district of Maharashtra will be benefitted by completion of 03 Minor Schemes under special package namely (i) Borasuri Storage Tank, (ii) Vairagarh Storage Tank and (iii) Chondi Storage Tank.

During 2019, Ministry of Jal Shakti has launched Jal Shakti Abhiyan (JSA) - a campaign for water conservation and water security. During the campaign, officers, water experts and scientists from the Government of India will work together with State and district officials in India's water-stressed districts for water conservation and water resource management.

Note on Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)

Irrigation development being a state subject, planning, execution and operation & maintenance of irrigation projects including repairing and strengthening of dams, embankments and canals are carried out by the State Governments from their own resources and as per their own requirements and priority of works. The Union Government has launched Accelerated Irrigation Benefit Programme (AIBP) in 1996-97 for providing financial assistance with an objective of expediting the implementation of ongoing major, medium and Extension, Renovation and Modernization (ERM) Irrigation Project including Lift Irrigation and Minor Irrigation Schemes for the schemes which are in advance stage and for which State Government is facing financial resource crunch. Total 297 nos. of MMI Projects have been included under AIBP out of which 143 nos have been completed as on 01.04.2015.

During 2015-16, Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) was launched by Union Government with an aim to enhance physical access of water on farm and expand cultivable area under assured irrigation, improve on farm water use efficiency, introduce sustainable water conservation practices etc. Under the PMKSY-AIBP, 99 priority projects have been identified out of ongoing 149 major / medium irrigation projects under AIBP with a dedicated funding mechanism to complete them in a time bound manner with the aim to be completed by Dec., 2019. Out of 99 priority projects, 34 MMI projects have been reported as completed under PMKSY-AIBP as on date. Under AIBP-PMKSY, a cumulative Central Assistance (CA) of Rs. 48327.80 Crore has been provided to these 99 priority projects till March 2019 and a cumulative irrigation potential of 5168.81 Th.Ha has been created till March 2018.

Note on Drought Prone areas

Drought Prone areas are given priority under AIBP/PMKSY. Total 54 projects benefitting drought prone areas in 11 States are part of the 99 prioritized PMKSY-AIBP projects. Government of India provides central assistance with higher funding ratio to irrigation projects situated in drought prone areas. For General category States, central share is 25% whereas for DPAP areas central share is 60%. Project-wise details of projects under DPAP category are given in enclosed Annexure-B.

In addition, Government of India has sanctioned a special package for completion of Irrigation Projects to address agrarian distress in Vidarbha and Marathwada and other chronically drought prone areas of Rest of Maharashtra during July, 2018. The package consists of 8 Major and Medium Irrigation (MMI) Projects approved by TAC of MoWR, RD & GR and 83 Surface Minor Irrigation (SMI) Projects. National Water Academy (NWA), is an academic institution imparting training to water resources professionals. As requested by you, information regarding seminars/training programs conducted by National Water Academy for "Irrigation Purpose" is as given below:

- 1 Command Area Development with special emphasis on improving overall irrigation system efficiency
- 2 Command Area Development with special emphasis on Monitoring and Evaluation
- 3 Training of Trainers in Participatory Irrigation Management (PIM)
- 4 Performance Evaluation and Benchmarking of Irrigation Projects
- 5 Irrigation Sector Reforms (PIM, Benchmarking, Volumetric Supply)
- 6 Modernization and Automation of Canal System
- 7 Irrigation Water Management & Modernization
- 8 Increasing Water Use Efficiency in Irrigation Sector under National Water Mission
- 9 Monitoring of Irrigation Projects using Web (BHUVAN Platform) Services
- 10 Monitoring of Irrigation Projects using GIS
- 11 Command Area Development & Water Management for CWES Officers due to implementation of New Scheme PMKSY
- 12 Water Budgeting for the Officials of WALMIs / IMTIs at NWA (Training of Trainers)

- 13 "More Crop Per Drop"- Bridging IPC-IPU Gap & Role of PIM
- 14 Water Budgeting
- 15 Design of Piped Irrigation Network and Micro Irrigation
- 16 Repair, Renovation and Restoration of Water Bodies directly linked to agriculture
- 17 Economic Analysis of Irrigation Projects

Regarding other points i.e. point 1 to 15, does not come under the preview of NWA. NWA being a training academy, deals only with imparting training to stake holders.

To

The Director
M&A Directorate
CWC Complex, Adabari, Guwahati
Assam-781014

Sub: Resubmission of DPR of Amreng Irrigation Project (Medium) (Re-cast Estimated Cost Rs. 104503.98 Lakh).

Ref. : i) No. 2(5)/2016-BBB/Amreng/3027-29 dated 18/08/2016 from B & BBO, Shillong
ii) No. 2(5)/2016-BBB/Amreng/3155-56 dated 23/08/2016 from B & BBO, Shillong
iii) No. 7/42/M&MI/KAAC/Aprl/2012-M&AG/46-48 dated 07/01/2019 - Director, CWC, Adabari.

With reference to the subject cited above I have the honour to submit herewith the revised DPR of Amreng Irrigation Project (Medium) after compliance of the observations made vide under references. The revised DPR cost comes to Rs. 104503.98 Lakh. As advised by CWC all the components of the projects has been redesigned as per the BIS codal provisions and cost has been optimized.

It is requested that the concurrence / approval of CWC may be conveyed at the earliest as the project has already been delayed and poor hills tribal people are deprived of the benefits of the project. This project is likely to increase the living standard of the peasants living in the command area.

Your kind needful early action is highly appreciated.
