# Heavy rain lashes Udupi, Dakshina Kannada districts

Normal life severely affected; floodwaters from Indrani rivulet enter Rajangana on Sri Krishna Math premises

**SPECIAL CORRESPONDENT**  
MANGALURU

Life was severely affected in the Udupi and Dakshina Kannada districts of Karnataka as heavy rain continued to lash the coastal belt for the second straight day on Sunday.

Eight persons were injured and more than 1,100 houses and public properties were damaged in the Udupi and Dakshina Kannada districts. There was no loss of life.

Some parts of Udupi city and houses in low-lying areas in 77 villages in the district were the worst hit as the region witnessed unprecedented rain and floods in decades.

Floodwaters from the overflowing Indrani rivulet at Kalsanka in Udupi city entered the Rajangana on Sri Krishna Math premises. The entire parking area of the

**Under water:** Vehicles submerged in a flooded area in Kalsanka near Udupi Krishna Mutt. ■ SPECIAL ARRANGEMENT

mutt was submerged. The four-lane Udupi-Manipal Road was flooded and water entered some shops and houses in the Kalsanka area.

According to B. Sadashiva Prabhu, Additional Deputy Commissioner, 2,874 people from 827 affected families had been evacuated in Udupi district till the evening. As many as 1,107 houses were damaged and 1,201 people,

including 563 women, were housed in 31 relief camps. Others took shelter in the houses of relatives. The worst-affected villages/areas were in Udupi, Kapu, and Brahmavar taluks.

## Road traffic hit

Traffic on the Udupi-Manipal-Hebri-Shivamogga Road was affected after floodwaters cut off connectivity at

Puthige. Hence, traffic was diverted through other routes, Mr. Prabhu said.

Around 25 houses were damaged in rain in Dakshina Kannada. Six persons were injured in a landslide near Vitla in Bantwal taluk, and two others in another landslide at Saripalla in Mangaluru.

Water from the Shambhavi entered the premises of the Bappanadu Durgaparameshwari temple in Mulki.

There was a landslide on the bypass railway line between the Konkan Railway network and the South Western Railway network, near Padil, in Mangaluru. It completely covered the track, affecting movement between Konkan Railway and Hassan/Mysuru/Bengaluru.

There was a landslide on Adyapadi Road near the Mangaluru International Airport in Kenjar village on the outskirts of Mangaluru.

# भारी बारिश से कर्नाटक के कई हिस्सों में तबाही

● उडुपी सबसे ज्यादा प्रभावित

भाषा। बेंगलुरु

कर्नाटक के कुछ हिस्सों में पिछले कुछ दिनों से भारी बारिश की वजह से काफी तबाही हुई है। खास तौर पर तटीय उडुपी जिला सबसे ज्यादा प्रभावित है जहां घर तथा फसलें पानी में डूब गई हैं, जिसके बाद सरकार ने रविवार को आपदा मोचन बल के कर्मियों को बचाव कार्य में लगाया है। कर्नाटक राज्य प्राकृतिक आपदा निगरानी केंद्र (केएसएनडीएमसी) के अधिकारियों ने बताया कि मलनाड, तटीय क्षेत्र और कुछ आंतरिक और उत्तरी जिलों में अगले कुछ दिनों में भारी बारिश के लिए अलर्ट जारी किए गए हैं। कर्नाटक में दक्षिणी पश्चिमी मानसून की दूसरी लहर राज्य से टकराई है जबकि कोविड-19 महामारी के बीच उत्तरी कर्नाटक में आई बाढ़ से राज्य अब तक ठीक से उबर भी नहीं था। केएसएनडीएमसी ने रविवार को बताया कि उडुपी में स्थिति गंभीर है क्योंकि कुछ गांव पानी में डूब चुके हैं, घर गिर गए हैं, सड़कें बह गई हैं और खेतों में लगी फसलें पूरी तरह से बर्बाद हो गईं। उडुपी में जिला मुख्यालय नगर में भी कई घर, चार-पहिया वाहन

कोच्चि के इडायला में रविवार को भारी बारिश के बाद सड़क पर लटका हुआ एक बिजली का खंभा

और सड़कें पानी की चपेट में आई हैं। राज्य गृह मंत्री बसवराज बोम्मई ने रविवार को कहा कि उन्होंने उडुपी जिला प्रशासन को तत्काल राहत

कदम उठाने का निर्देश दिया है। मंत्री ने कहा कि वह राजस्व मंत्री आर अशोक से बचाव कार्य में वायु सेना का एक हेलीकॉप्टर लगाने का आग्रह

करेंगे। वहीं कर्नाटक राज्य आपदा प्रबंधन प्राधिकरण अधिकारी के अनुसार बचाव कार्य के लिए वहां एक हेलीकॉप्टर को तैयार रखा गया है।

Chief Minister Edappadi K Palaniswami inaugurating 25 sub-stations of TNEB from the Secretariat in Chennai on Saturday

## Slew of projects unveiled across TN

EXPRESS NEWS SERVICE

@ Chennai

CHIEF Minister Edappadi K Palaniswami on Saturday inaugurated 25 sub-stations of Tamil Nadu Electricity Board in various districts established at a total cost of ₹353.11 crore, through video conference from the Secretariat. He also laid the foundation for three water resources projects to be completed at an estimated cost of ₹24.93 crore while declaring open School Education Department buildings constructed at a cost of ₹49.60 crore.

Palaniswami also handed over a work order for executing Artificial Intelligence-Based Active Grid Network Management System to Bengaluru-based Enzen Global Solutions Private Limited. This is a first of its kind initiative in the country. The State government has allocated a sum of ₹6 crore for this project.

The Chief Minister also laid the foundation for constructing a check-dam across the Vai-gai river at a cost of ₹17.40 crore. This would be useful in fortifying groundwater table

### 25 TNEB sub-stations

The sub-stations are located in Erode, Chennai, Coimbatore, Cuddalore, Kallakurichi, Krishnagiri, Nagapattinam, Salem, Thanjavur, Tiruvallur, Tiruvannamalai, Tiruvarur, Tiruchy and Vellore. They include the ones located at N Mettupalayam (Erode – ₹10.161 crore), Sankarapuram (Kallakurichi – ₹177.93 crore), Sengathurai and Mahatma Gandhi Road (Coimbatore – ₹27.07 crore), Minnampalli, Moongilpadi and Ganapathipalayam (Salem – ₹34.75 crore).

in areas like Ponmeni, Ellis Nagar, Pazhanganatham, SS Colony, Madakkulam and TVS Nagar which fall in Madurai Corporation limits. Besides, the check-dam ensures storing of 215.89 mcft of water in Madakulam, Keezhamathur and Thuvaraman lakes, helping to irrigate 3,360.13 acres of lands here apart from meeting the drinking water needs.

The Chief Minister also inaugurated renovation works for the first branch of Thirumangalam Main Canal at the

cost of ₹6.82 crore. The first branch of the canal, with a length of 6.64 kilometres, irrigated 1,302.97 acres land. Following complaints on damaged canal by farmers, it would now be renovated, said sources.

The CM also inaugurated a new building to mark the centenary celebrations of former Chief Minister MG Ramachandran. The building is located within the DPI complex and has been constructed at a cost of ₹39.90 crore. He also inaugurated school buildings, labs, etc., at five higher secondary schools in the districts of Coimbatore, Kallakurichi, Theni, Tiruvannamalai and Villupuram.

The CM also handed over appointment orders to seven persons who have been recruited as junior assistants in the Public Works Department. In all, 148 persons have been appointed as junior assistants. He also inaugurated an in-patient ward for large animals and a room for animal care-takers (₹90 lakh) at Veterinary College and Research Institute (VCRI) campus in Tirunelveli and Kunthukal fishing jetty at Mandapam panchayat in Ramanathapuram.

# State to have adequate water till monsoon

Groundwater levels have risen in most parts of TN owing to good rainfall: TWAD

**EXPRESS NEWS SERVICE**

@ Chennai

THE groundwater level in the state, excluding Chennai, has improved by an average of three metres after the onset of southwest monsoon, said Dr CN Mahesvaran, MD of Tamil Nadu Water Supply And Drainage Board (TWAD).

The TWAD board, which monitors groundwater levels through 1,286 observation wells across the state, except Chennai, has found that the level rose to 14 metres after being down to a depth of 16.3 metres in September 2018, said a release from the board on Saturday. During the pre-mon-

soon period (May 2020) this year, the level was further down at 17.3 metres. The rise in level was because of the 402 mm rainfall the State received, which is 24 per cent higher than that of last year (323 mm). Average rainfall

expected for the complete year is 985 mm, the release stated.

Meanwhile, the storage positions in the 17 reservoirs across the state is 127 TMC (thousand million cubic feet). "Analysing the rainfall, rising groundwater levels and the storage position at reservoirs, the state will be provided with adequate water till the onset of monsoon," the release added.

Deccan Chronicle 21-September-2020

# Heavy rain forecast till tomorrow

T.S.S. SIDDHARTH | DC  
HYDERABAD, SEPT. 20

Heavy rains lashed several parts of the state on Sunday. While tanks and water bodies are brimming due to heavy rains, many roads in the city were inundated, affecting free flow of traffic.

As of 7 pm, the highest amount of rainfall in the state was recorded at the Bhavaninagar Community Hall in Hayatnagar. The area received 79.3 mm of rainfall. According to Indian Meteorological Department (IMD), the current spell of rains is due to presence of a low-pressure area in the Bay of Bengal. "The system, which formed on Sunday morning, is expected to bring rain all over the state," an official of the local weather department said.

The IMD has issued a heavy rainfall warning till Tuesday. It said thunderstorms accompanied by lightning are very likely to occur at isolated places over Telangana, including the erstwhile districts of Adilabad, Karimnagar, Nizamabad, Warangal and Khammam.

As a result, officials of the state government said there are chances of flood-

The road at Moosarambagh is waterlogged Due to the heavy rain on Sunday, making it difficult for motorists to traverse the stretch.  
— P. SURENDRA

ing and water-logging in low-lying areas.

In light of heavy rainfall in Greater Hyderabad Municipal Corporation (GHMC) limits during the last 96 hours, disaster response teams on the field are attending to com-

plaints of fallen trees and clearing stagnant water, apart from dealing with other issues.

In the last four days, civic officials have cleared 203 complaints of water stagnation, tree falls and building or wall collapses.

After September 17 — when five feeders had tripped — no more incidents have been reported, according to officials of the Telangana State Southern Power Distribution Company Limited (TSSPDCL).

## MINIMISE RAIN DAMAGE, CM TELLS OFFICIALS

S.A. ISHAQUI | DC  
HYDERABAD, SEPT. 20

With the meteorological department warning of heavy rainfall over the next couple of days, Chief Minister K. Chandrashekar Rao on Sunday reviewed the situation with Chief Secretary Somesh Kumar and directed him to take steps to prevent any loss of life and property.

The Chief Secretary has directed all police superintendents and collectors to be alert to the unfolding situation caused by heavy rainfall.

All the officers were directed to be available at their headquarters. Kumar directed them to strictly follow the flood protocol com-municated to them earlier.

The meteorological department had warned that there might be heavy to very heavy rainfall over isolated parts of the state, especially in the erstwhile districts of Adilabad, Karimnagar, Nizamabad, Warangal and Khammam.

The weather department also cautioned that massive flooding and waterlogging could occur in low-lying areas.

Falling of trees and electric poles can happen leading to the disruption of normal activities. Reservoirs, tanks and streams may overflow causing inundation of low-lying areas and cause low bridges and causeways to overflow, posing threat to traffic and people.

### ● THE CHIEF

Secretary has directed all police superintendents and collectors to be alert to the unfolding situation caused by heavy rainfall. All the officers were directed to be available at headquarters.

## Garden View Wakf mall floods again

ATHER MOIN | DC  
HYDERABAD, SEPT. 20

The rains over the past few days have completely flooded the basement of the under-construction Garden View Wakf mall, a property owned by the Wakf Board at Nampally. The building, located opposite the Public Garden and adjacent to the Haj House, has been under construction since 2009.

The lower of the two basement levels was flooded a month ago and no steps were taken to clear the water. The upper level was inundated following the recent rains. The flooding of the basement, it is feared, could pose additional danger to

The flooded basement of the under-construction Garden View Wakf mall in Hyderabad.

the seven-floor building. The structure is meant for commercial use and is aimed to increase the revenue of the Wakf Board.

There is confusion over how the structure will be used. The Wakf Board wants to lease the building to big companies

while the government and public representatives want to shift all organisations working under the minorities' welfare department to this building. Every year, water enters the basement during the rainy season. It has become a breeding ground for mosquitoes as the rainwater stagnates in the basement for months. GHMC authorities refuse to drain out the water as it needs heavy motors.

Last year, it was announced that the TS Police Housing Corporation will finish the remaining construction works of the complex but clearly that has not happened as yet.

Telangana Today 21-September-2020

Telangana Today

# Thunderstorms likely for next three days

Hyderabad continues to record surplus rainfall; heavy rain expected at isolated places in several districts

CITY BUREAU  
Hyderabad

With southwest monsoon active over the State, Hyderabad continued to record surplus rainfall even in September with moderate rains recorded in several parts. Though it was a drizzle that kept returning to different parts of the city in the morning, by evening the rain picked up in most places.

Till 5 pm, Hayathnagar recorded highest rainfall of 61.5 mm, followed by Sa-roornagar (59.5 mm), Nagole (59 mm), Lingojiguda (57.5 mm) and Vanasthalipuram (51.8 mm), according to Telangana State Development Planning Society (TSDPS). During the last 24 hours, the highest rainfall of 49.9 mm was recorded at Kapra.

In the State, maximum rainfall of 86.5 mm was recorded at Madgul near Rangareddy district while highest temperature of 37.7 has been registered at Manthani in Peddapalli. The weathermen attributed prevailing weather conditions to the low pressure area over northeast Bay of Bengal and neighborhood with associated cyclonic circulation and under its influence, rainfall distribution and intensity is expected to increase over the State in the next two days. The weather forecast with TSDPS shows

A scooterist, along with his family, rush for cover as rains lash Hyderabad on Sunday. The South West Monsoons have been relentless in Hyderabad and elsewhere in Telangana for the past few days. — Photo: Anand Dhamana

that light to moderate rain/thunderstorms are expected at many places for the next three days in city.

Meanwhile, a weather warning with the Met Department, Hyderabad indicated that thunderstorms accompanied with lightning are very likely to occur at isolated places over Telangana. Heavy rain is very likely to occur at isolated places in several districts.

## DRF teams swing into action

**HYDERABAD:** Even as heavy rains continued to lash the city, GHMC's Disaster Response Force (DRF) teams have been working tirelessly in addressing grievances of citizens.

During the last 96 hours, Disaster Response Force teams working under the Di-

rectorate of Enforcement, Vigilance and Disaster Management, cleared fallen trees, water stagnations and attended other rescue calls.

The DRF teams cleared 203 complaints of water stagnations, tree falls, rescue calls and citizen assis-

tance. EVDM Director Viswajit Kampati said all DRF teams supervising officers in the GHMC limits were on a high alert and on field to attend any disaster or emergency.

Citizens can dial 040-29555500 in case of any emergency.

# Water levels in twin reservoirs rise

Further inflows expected into Osman Sagar and Himayath Sagar

CITY BUREAU

HYDERABAD

With the heavy rains lashing the city and its suburbs since last couple of days, the water levels in twin reservoirs of Himayath Sagar and Osman Sagar have started to increase slowly. Hyderabad Metropolitan Water Supply and Sewerage Board (HMWSSB) is expecting further inflows into both Osman Sagar and Himayath Sagar reservoirs as the catchment areas have been receiving a good amount of rainfall in the recent rains.

On Friday, the water level in Himayat Sagar was 1,747 feet as against the Full Reservoir Level (FRL) of 1,763 feet and in Osman Sagar it was 1,761 feet against a FRL of 1,790 feet.

This was after the water levels increased by 1.3 ft in Himayath Sagar and by 2.2 ft in Osman Sagar. On Thurs-

*People throng Himayat Sagar following the increase in water levels, in Hyderabad on Sunday.*

day too, there were considerable inflows into the reservoirs with most parts of the city, including the catchments areas, receiving good rains.

Water Board officials further informed that there would be no dearth of drinking water in the city because the main sources of drinking water to Hyderabad, the Na-

garjuna Sagar Project on River Krishna and Yellampally project on River Godavari, have received good inflows. Since 2015, the HMWSSB had stopped drawing water from Osman Sagar and Himayat Sagar, but had to draw water last summer due to low water levels in the Singur and Manjeera reservoirs.

# Torrential rains wreak havoc in parts of K'taka, Udupi worst hit

## OUR CORRESPONDENT

**BENGALURU:** Heavy rains in the past few days have wreaked havoc in several parts of Karnataka, especially in coastal Udupi district where houses and crops have been submerged, prompting the government to rush disaster response force personnel for rescue operations on Sunday.

Officials in the Karnataka State Natural Disaster Monitoring Centre (KSNDMC) said an alert for heavy rains has been issued for Malnad, coastal regions and a few interior and northern districts for the next couple of days.

The second wave of south-west monsoon fury hit the state which is yet to recover fully from the floods in North Karnataka, the Malnad and the coastal regions last month amid the COVID-19 pandemic.

The situation in Udupi was grim as some villages have

been submerged, houses have collapsed, roads washed away and standing crops completely destroyed, a senior official in the KSNDMC said on Sunday.

In the district headquarter town of Udupi, several houses, four-wheelers and roads have come under sheets of water.

State Home Minister Basavaraj Bommai on Sunday said he has directed the Udupi district authority to take relief measures immediately.

"I am aware of the floods in Udupi inundating a few villages. I have directed the district authorities to rush a 250-member team of the State Disaster Response Force (SDRF) there. The National Disaster Response Force (NDRF) will also reach there," he said in a statement.

The Minister said he would speak to Revenue Minister R Ashoka regarding requesting an Air Force helicopter for the rescue work.

**मानसून कमजोर****बीसलपुर बांध में घटने लगा है पानी, दो दिन में दो सेमी की कमी दर्ज**

**राजमहल.** बीसलपुर बांध के जलभराव में सहायक व कैचमेंट क्षेत्र में पड़ने वाले भीलवाड़ा व चित्तौड़गढ़ सहित राजसमंद जिलों इस वर्ष मानसून की कमी के चलते बीसलपुर बांध में पर्याप्त पानी की आवक नहीं हुई। इससे बांध पूर्ण जलभराव से दो मीटर दूर रह गया है। वहीं बांध का गेज अब वापस जलापूर्ति के साथ ही वाष्पिकरण व अन्य खर्च को लेकर रोजाना एक सेमी की रफ्तार से घटने लगा है। रविवार तक बांध से रोजाना एक सेमी की कमी के साथ बांध का गेज 313.49 आर एल मीटर रह गया है। ऐसे में बांध से एक वर्ष तक जलापूर्ति का पानी माना जा रहा है। वहीं सिंचाई पर संकट के बादल मंडराते नजर आ रहे हैं। इस बार बांध के खाली रहने का कारण बनास में पानी धार नहीं फूटना रहा। इस वर्ष बांध में अब तक कुल 6.5 टीएमसी पानी की आवक निकटवर्ती क्षेत्र में बरसे मेघ व डाई व खारी नदियों से आए पानी से ही मानी जा रही है।

**एक साल का पेयजल आरक्षित**

बांध से पेयजल के लिए कुल 16 टीएमसी पानी आरक्षित रखा गया है। वर्षभर के लिए लगभग 5 से 6 टीएमसी पानी वाष्पिकरण व अन्य में खर्च माना जाता है। साथ ही 8 प्रतिशत पानी सिंचाई के लिए आरक्षित है। ऐसे में बांध में आया पानी जून 2021 तक पर्याप्त है। बांध में अभी कुल जलभराव का

लगभग 63.50 प्रतिशत पानी आ चुका है। बांध का कुल जलभराव क्षेत्र 21 हजार 300 हैक्टेयर है। जिसमें अभी 16 हजार 500 हैक्टेयर भूमि जलमग्न हो चुकी है। बांध का जलभराव लगभग 12 किमी दूर नेगडियावबोरड़ा गणेशजी तक पार कर नापा का खेड़ा से आगे तक भर चुका है।

## कर्नाटक: भारी बारिश से बाढ़, बचाव में जुटी एनडीआरएफ

उडुपी. रविवार को मूसलाधार बारिश के कारण उडुपी शहर और आस-पास के स्थानों जैसे एक्लूर, पुत्तिगे, गुडिबलु, कालसांका, बैलाकेरे, अदि उडुपी, किनिमुलकी और कुदावूर में बाढ़ का रिकॉर्ड टूट गया। उडुपी जिला प्रशासन को मंगलुरु से एनडीआरएफ की टीमों को बुलाने को मजबूर होना पड़ा।

Hari Bhoomi 21-September-2020

## साबरमती नदी के घाटों की तर्ज पर गोरखपुर में राप्ती की बदलेगी सूरत

गोरखपुर। उत्तर प्रदेश के गोरखपुर जिले की राप्ती नदी के दूसरे तट पर (नौसड़ की तरफ) बन रहे रामघाट को गुजरात की साबरमती नदी के किनारे बने घाट की तर्ज पर बनाया जा रहा है। पंद्रह करोड़ 59 लाख की लागत से बन रहे, सो मीटर लंबे इस घाट का निर्माण दिसंबर 2020 तक पूरा करने का दावा किया जा रहा है। हालांकि इसे मार्च 2020 में पूरा हो जाना था। सिंचाई विभाग का दावा है कि राजघाट और अल्योष्टि स्थल के साथ इसका भी लोकार्पण कराया जाएगा। बता दें कि योगी आदित्यनाथ सांसद रहते राप्ती तट पर एक सुंदर घाट बनवाने का प्रयास कर रहे थे। जब वे मुख्यमंत्री बने तो इस कार्य की शुरुआत हुई। निर्माण कार्य की प्रगति जानने आए तो घाट की लंबाई 50 मीटर और बढ़ाने का निर्देश दिया। इसे रामघाट नाम दिया गया है। कार्यदायी संस्था का कहना है कि घाट की लंबाई बढ़ने से कार्य में विलंब हुआ। कोरोना संकट और बाढ़ की वजह से भी निर्माण की गति में बाधा आई। अब तेजी से काम किया जा रहा है।

Hari Bhoomi 21-September-2020

## आईएमडी का रेड अलर्ट कर्नाटक में बाढ़ से तबाही बह गए घर, फसलें बर्बाद

एजेंसी ►► बेंगलुरु

कर्नाटक के कुछ हिस्सों में पिछले कुछ दिनों से भारी बारिश की वजह से काफी तबाही हुई है। खास तौर पर तटीय उडुपी जिला सबसे ज्यादा प्रभावित है जहां घर तथा फसलें पानी में डूब गई हैं, जिसके बाद सरकार ने रविवार को आपदा मोचन बल के कर्मियों को बचाव कार्य में लगाया है। कर्नाटक राज्य प्राकृतिक आपदा निगरानी केंद्र के अधिकारियों ने बताया कि मलनाड, तटीय क्षेत्र और कुछ आंतरिक और उत्तरी जिलों में अगले कुछ दिनों में भारी बारिश के लिए अलर्ट जारी किये गये हैं। कर्नाटक में दक्षिणी पश्चिमी मानसून की दूसरी लहर राज्य से टकरा रही है जबकि कोविड-19 महामारी के बीच उत्तरी कर्नाटक में आयी बाढ़ से राज्य अब तक ठीक से उबरा भी नहीं था। केएसएनडीएमसी ने रविवार को बताया कि उडुपी में स्थिति गंभीर है क्योंकि कुछ गांव पानी में डूब चुके हैं, घर गिर गए हैं, सड़कें बह गई हैं और खेतों में लगी फसलें पूरी तरह से बर्बाद हो गई। उडुपी में जिला मुख्यालय नगर में भी कई घर, चार-पहिया वाहन और सड़कें पानी की चपेट में आई हैं। गृह मंत्री बसवराज बोम्मई ने कहा कि उन्होंने तत्काल राहत कदम उठाने का निर्देश दिया है।

### देश के कई इलाकों में रेड अलर्ट जारी

नई दिल्ली। इन दिनों देश के कुछ राज्यों में तेज बारिश हो रही है तो कहीं गर्मी के कारण लोगों की हालत खराब है। केरल, ओडिशा समेत कई राज्यों में बारिश देखने को मिल रही है तो वहीं, दिल्ली-एनसीआर, बिहार और पंजाब के अलावा कई राज्यों में लोगों का गर्मी से हाल बेहाल है। केरल में रविवार को हुई भारी बारिश के बाद मौसम विभाग ने आठ जिलों में रेड अलर्ट जारी कर दिया है। भारतीय मौसम विभाग ने जानकारी दी है कि केरल के इडुक्की, मलाप्पुरम, कन्नूर, कासरगोड, वायनाड, थिश्शूर, कोझीकोड और पलक्कड चार जिले रेड अलर्ट पर हैं। इसके अलावा, पांच जिलों कोल्लम, पठानमथिट्टा, कोट्टायम, अलप्पुझा और एर्नाकुलम में ऑरेंज अलर्ट जारी किया गया है। वहीं, तिरुवनंतपुरम समेत कई अन्य जिलों में भी काफी बारिश हुई है इस वजह से इन जिलों को येलो अलर्ट के तहत रखा गया है।

### ►► ओडिशा के कई जिलों में भी ऑरेंज अलर्ट

विभाग ने जानकारी दी है कि रविवार को ओडिशा के 7 जिलों के लिए ऑरेंज अलर्ट जारी किया गया है। इन 7 जिलों में मालकानगिरी, कोरापुट, बालेश्वर, मयूरभंज, भद्रक, जाजपुर, केन्दापड़ा जिले में भारी बारिश होने की आशंका है। इसके अलावा जगतसिंहपुर, कटक, पुरी, खुर्दा, केन्दुझर, सुन्दरगढ़, सम्बलपुर, अनुगुल, देवगढ़ एवं कालाहांडी जिले में भी भारी बारिश हो सकती है।

Hindustan 21-September-2020

# राजधानी में कल बारिश के आसार

**नई दिल्ली (व.सं)।** दिल्ली में एक बार फिर मौसम करवट लेने जा रहा है। मंगलवार से बारिश होने के आसार हैं। साथ ही पारे में गिरावट दर्ज होने की भी संभावना है, जिससे दिल्ली वालों को गर्मी से राहत मिल सकती है।

**3 डिग्री तक गिरेगा पारा :** मौसम विभाग के मुताबिक, मंगलवार दोपहर को बारिश का अनुमान है। अधिकतम तापमान में गिरावट शुरू हो जाएगी। यह गुरुवार तक 34 डिग्री तक पहुंच सकता है। सोमवार की तुलना में बारिश की वजह से अधिकतम तापमान में 3 डिग्री तक गिरावट दर्ज हो सकती है। वहीं, इसके बाद एक बार फिर गर्मी का असर देखने को मिल सकता है और शुक्रवार को अधिकतम तापमान 37 डिग्री के बीच दर्ज किया जा सकता है।
