Rain relief after Delhi sets cracker ban afire

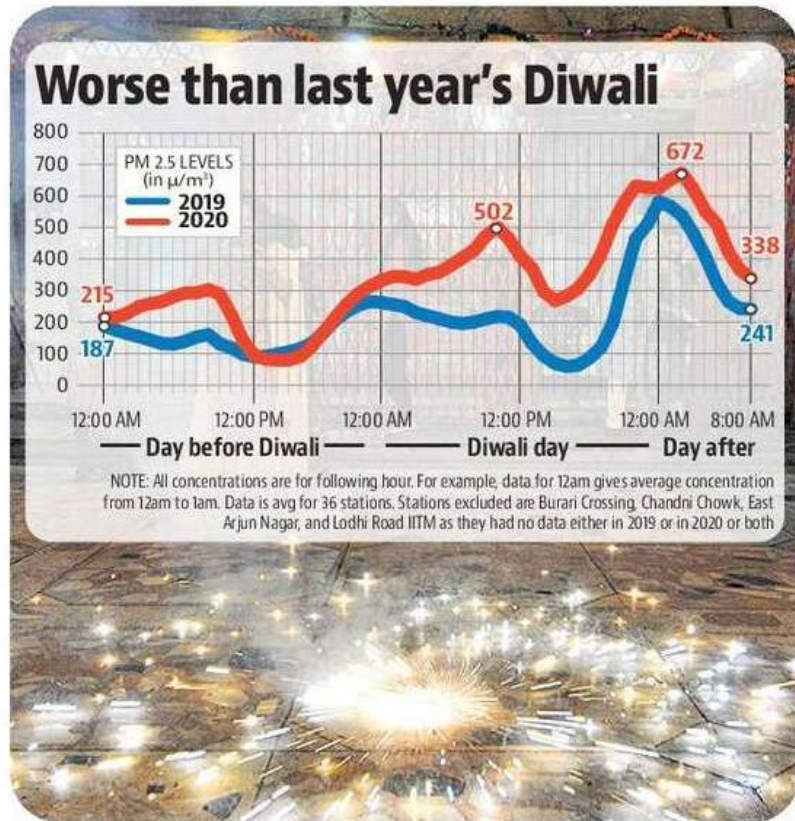

Jayashree Nandi and
Soumya Pillai

letters@hindustantimes.com

NEW DELHI: Pollution levels soared in the national capital on Saturday night and early Sunday as tens of thousands of people defied the ban on firecrackers, before providential winds blowing in the right direction flushed the pollutants out on Sunday, with a smattering of rain in the late afternoon and evening washing everything down.

On Saturday and early Sunday, though readings from air quality sensors across the city showed a rapid rise in concentration of harmful emissions, before going on to surpass levels seen during last year's Diwali.

The average air quality index rose from 414 at 4pm on Saturday to reach 435 on Sunday, with PM2.5 and PM10 emission concentration recording a sharp spike that began at 6pm. According to the Central Pollution Control Board's emergency dashboard, concentration PM2.5 went from 306ug/m³ at 5pm to a peak of 672 ug/m³ at 2am.

SUNIL GHOSH/HT PHOTO

The crackers just made already bad air worse.

"This year air pollution levels both during pre-Diwali and Diwali day has been higher than last year," said a CPCB scientist.

But then, the region had an unexpected stroke of luck this year. "Looking at the dispersion of pollutants, this was the best Diwali compared to the last four years," said an official. →P5

DC CORRESPONDENT
VISAKHAPATNAM, NOV. 15

A trough in easterlies will run from Comorin to South Bay of Bengal and adjoining west central Bay of Bengal off Tamil Nadu and south coastal Andhra Pradesh on Sunday. Under its influence, scattered to fairly widespread rainfall accompanied by thunderstorms are likely over coastal Andhra Pradesh, Tamil Nadu and Puducherry. In the last 24 hours, Tirupati and Chennai received 1 cm of rainfall while many areas across the coast and Rayalaseema remained cloudy. On Sunday, Nellore received moderate rains.

"The situation will remain the same for the next three days. Rayalaseema and south coastal Andhra will receive good rains," said IMD director at Amaravati, S. Stella.

Rain brings cheer to wheat growers

Light rains and thundershowers at most places in the state on Sunday brought cheer to farmers, especially wheat growers who had sown their crop without burning paddy straw. It is also beneficial for those who are preparing to sow wheat and other rabi crops.

Moreover, air pollution levels are also likely to fall after the state witnessed thousands of incidents of burning the paddy straw during the current harvesting season.

Dr Jaswinder Singh Brar, plant protection officer, Moga, said the widespread rain was expected to boost wheat crop sowing this season. An expected drop in the minimum temperature during November would help the temperature-sensitive wheat crop, which needed cold conditions to thrive.

Dr Brar said farmers who had already sown wheat crop a few weeks ago without burning the paddy straw was likely to benefit a lot.

Dr Balwinder Singh, Chief Agriculture Officer, Moga, said, "The rain will not only help in reducing the pressure

Muktsar: The rain brought a relief from air pollution in the district. Stubble burning incidents and bursting of crackers on Saturday night had increased the air pollution. TNS

on the groundwater but also help in retaining soil moisture. It will help reduce the cost inputs. Even where farmers are going for late wheat sowing, the rain will be of immense help to them."

Bathinda: Rain lashed parts of Bathinda and Mansa districts on Sunday. As per Meteorology Department officials, rain was of mild to moderate degree that lasted for about 20 to 25 minutes in some parts of the region.

Meanwhile, residents in Bathinda rued that even mild rain that lasted for half an hour resulted in accumulation of rainwater on city roads. They however, got much needed relief from the air pollution caused by burning of paddy stubble lately. — TNS

Special wing for water bodies in city

CITY BUREAU

Hyderabad

A special wing will be set up for protection and conservation of water bodies in Greater Hyderabad Municipal Corporation (GHMC) limits, MA&UD Minister KT Rama Rao said.

During a review meeting with the officials from municipal department on Sunday, Rao said the government is coming up with an action plan for water bodies and nalas in GHMC limits along with areas inside Outer Ring Road.

The Minister said a special wing headed by one of the chief engineers from the Irrigation department and a special commissioner from GHMC is being set up to specially protect the water bodies from encroachments and also take up conservation activities.

Bringing in more coordination between departments, a task force with officials from HMWSSB, HMDA, Revenue, Irrigation department, will be set up for the development of lakes

KTR says it is being set up to protect water bodies from encroachments and to take up activities for their conservation

and nalas. The Minister said tougher laws will be incorporated on encroachments of lakes and nalas in the new GHMC Act and instructed the officials to take up a detailed study on all the lakes and nalas in the GHMC limits, keeping in mind the damage caused by the recent floods in Hyderabad and neighbouring municipalities.

He asked the officials to study the strengthening and stabilizing of the bunds and the municipal officials to closely work with the irrigation department to take up the study.

Mayor Bonthu Rammo-han, Principal Secretaries Arvind Kumar and Rajath Kumar were present at the meeting.

More help to those hit by pandemic, rain: KTR

Says left out flood victims can apply for relief through Mee Seva

STATE BUREAU

Hyderabad

Municipal Administration and Urban Development Minister K T Rama Rao said the State government has decided to extend help to the people who had been impacted first by the coronavirus-triggered lockdown and later the heavy rains in the State, particularly in the State capital.

Speaking to the media here on Saturday, Rama Rao said Chief Minister K Chandrashekhar Rao and other Ministers discussed the impact of Covid-19 pandemic on the financial condition of people, as well as the governments at the Cabinet meeting on Friday.

More help

"It was decided that some more help should be extended to the people. Accordingly, the Chief Minister asked us take necessary measures to give more relief to the affected," the Minister said. The Minister said the

Minister KT Rama Rao speaking at a press meet on Sunday.

flood-affected families in GHMC and 15 other adjoining municipalities who did not receive the flood relief of Rs 10,000 announced by the State government, can now get the aid by submitting an application through nearby Mee Seva centres. On providing all relevant details, the authorities will verify their authenticity and provide Rs 10,000 at their doorstep or deposit the amount in their bank accounts.

The State government disbursed more than Rs 470 crore to 4,75,871 families in

GHMC and adjoining municipalities towards immediate flood relief. "The Chief Minister released Rs 550 crore to provide immediate financial relief to the flood-affected families. Nearly five lakh flood-affected families are benefiting from the gesture. We are giving another opportunities to the flood affected families who did not receive the financial relief announced by the State government and asking them to avail the amount by submitting an application through Mee Seva centres," Rama Rao added.

Parliamentary panel to mull int'l water treaties next week

NEW DELHI: A parliamentary committee will consider India's international water treaties with neighbouring countries next week, including with China amid less-than cordial relations between the two countries in the wake of deadly clash between the two armies in Galwan Valley in eastern Ladakh in June. The committee will discuss issues related to similar treaties with Pakistan, Nepal and Bhutan regarding water resource management as well as flood management in India. ► **P10**

Anil denies reduction in Polavaram project height

- Lambasts TDP chief and former ministers for making false propaganda on the project
- Asserts that CM will dedicate the project to the nation in Dec 2021 at any cost
- Says the YSRCP govt is completing all pending projects on priority basis

HANS NEWS SERVICE
NELLORE

WATER resources minister P Anil Kumar Yadav accused former chief minister N Chandrababu Naidu of spreading false news that the government had decided to reduce Polavaram irrigation project's height thus drastically reducing its benefits.

Addressing the media at YSRCP office here on Sunday, he stressed that there was no such proposal and asked Naidu to visit the project for measuring its height. Chief Minister Y S Jagan Mohan Reddy was going to dedicate the project to the nation in December 2021 at any cost, he said adding the TDP

Water Resources Minister P Anil Kumar Yadav addressing the media YSRCP office in nellore on Sunday

chief along with his former ministers was making false propaganda regarding the project.

Anil Kumar said Naidu had no moral right to speak on the issues of project as he had failed to focus on even rehabilitation and resettlement (R&R) package to the farmers who handed over lands to the project during his rule. He dismissed the claims of TDP leaders that they had finished 70 per cent of the project works during their regime.

Anil Kumar said that they would shift 20,000 families in the first phase under Polavaram project. He demanded the TDP

chief to reveal their Cabinet resolution submitted to the Centre during 2017.

The minister said that state government would complete the irrigation projects on priority basis providing R&R packages to the landowners. He explained that the state government allocated Rs 900 crore to around 7,000 families for R&R for Gandikota and Rs 12,000 crore had been allocated to Veligonda.

He also said they would take measures for providing relief to the oustees of Kandaleru project in Nellore district.

Govt mulls separate wing for lakes preservation in ORR limits

- ▶ The separate wing will be headed by a chief engineer from the Irrigation Department and a special Commissioner from GHMC
- ▶ Government to bring stringent rules for preserving water bodies in the new GHMC Act
- ▶ The Act will have provision for right to demolish houses constructed on water bodies, and other encroachments

HANS NEWS SERVICE
HYDERABAD

MUNICIPAL Administration Minister KT Rama Rao on Sunday said that the government would set up a separate wing for maintaining and preserving the lakes inside the Outer Ring Road limits.

The Minister held a review meeting with the irrigation, Water Board, HMDA, Revenue officials at GHMC office on Sunday. He said that the government was taking up a special action plan for

Municipal Administration Minister KT Rama Rao holding a review meeting with the Irrigation, Water Board, HMDA, Revenue officials at GHMC office in Hyderabad on Sunday

preserving the nalas, lakes in the GHMC limits. In wake of the heavy damage caused due to incessant rains and flooding, the government was preparing a comprehensive action plan on lakes and nalas. The Minister asked the officials to check the strength of the bunds and stability with the help of irrigation department officials. He said that there was a need to strengthen the bunds and if needed, other repairs works should also be taken up.

The Minister said that the sep-

arate wing would be headed by a chief engineer in the irrigation department and there would be a special commissioner from the GHMC. They would supervise and remove encroachments on the water bodies if there were any. Apart from this, the government also proposed to set up a task force with officials from the Water Board, HMDA, Revenue, Irrigation and some other department officials. The task force would take action whenever there was a need to take action. As the irrigation department offi-

cial monitor the water levels in the dams during the flood situation, the task force officials would also check the water levels in lakes and other water bodies and check the inflows and outflows during the rainy season.

The government would bring stringent rules for preserving the water bodies in the new GHMC Act, which would be brought soon. The Act would have provision which provides right to demolish the houses constructed on the water bodies and other encroachments, he informed.

मौसम ने ली करवट, कहीं बारिश तो कहीं ओले

पहाड़ों में बर्फबारी व बारिश को लेकर पीली चेतावनी जारी

जनसत्ता संवाददाता
नई दिल्ली, 15 नवंबर।

पश्चिमी विक्षोभ के प्रभाव के कारण उत्तर व पश्चिमोत्तर भारत में मौसम ने अचानक करवट बदली है। पहाड़ों पर बर्फबारी होने से मैदानों में भी ठंड बढ़ने के आसार हैं। जहां पहाड़ों में बर्फ पड़ी है, वहीं हरियाणा व आसपास के इलाकों में बारिश के साथ ओले गिरे। दिल्ली में भी छिटपुट बूदाबांदी हुई। सोमवार को भी हल्की बारिश के आसार हैं।

भारतीय मौसम विभाग ने बताया है कि हिमाचल प्रदेश में मौसम ने करवट बदल ली है। रविवार सुबह से ही लाहुलस्पीति व कुल्लू मनाली की ऊंची चोटियों में बर्फबारी का क्रम शुरू हो

हरियाणा के हिसार में ओले पड़ने के बाद का नजारा।
