

Annexure-I

STATUS OF LOWER INDRA IRRIGATION PROJECT (AIBP PROJECT)

The lower Indra Irrigation Project was approved for Rs. 1624.49 Crore by Planning Commission vide No.20(18)/2010-WR dated 09.12.2013. The project is included under AIBP during FY 1999-2000 and is being monitored by M & A Dte, CWC, Bhubaneswar. The latest revised estimated cost of AIBP components of the project is Rs. 1753.64 Crore (AIBP components: Rs. 1595.36Crore) at 2016 PL approved (FTPC) by Competent Authority.

PROJECT COMPONENTS

- i) 3780 m long earth dam.
- ii) 159 m long centrally located Ogee type gated spillway.
- iii) 49.38 km long Left Main Canal (LMC).
- iv) 8.22 km long Right Main Canal (RMC).
- v) 3 nos. dykes, 660m, 542m and 1190m long respectively.
- vi) Right & left canal head regulators & Distribution system

BENEFITS

a)	Irrigation Potential	:	38.87 Th.Ha (CCA: 29.90 Th. Ha.)
b)	Annual Irrigation	:	38.87 Th.Ha (CCA: 29.90 Th. Ha.)
c)	Drinking Water Supply	:	-

Physical & Financial Progress as on July, 2020

PHYSICAL

i)	Head works	:	100 %
ii)	Main canal	:	100%
iii)	Branch canal	:	100%
iv)	Distributaries	:	95%
v)	Minors	:	95%
vi)	Design Ultimate Irrigation Potential	:	38.87 Th. Ha. (CCA: 29.90 Th. Ha.)
ix)	Irrigation Potential created upto Oct, 2020	:	36.40 Th. Ha.(CCA: 28.00 Th. Ha.)

FINANCIAL :

i)	Approved Cost (Rs.Cr.) by Planning Commission	Rs. 1624.49 Crore (AIBP: Rs.1093.99 Cr.)
ii)	Latest Revised Cost (Rs.Cr.) by FTPC	Rs.1753.64 Crore (AIBP: Rs. 1595.36 Cr.)
iii)	Expenditure upto March,2020 (on AIBP)	Rs. 1638.68 Crore
iv)	Expenditure during 2020-21 upto Oct ,2020 (AIBP)	Rs 7.953 Crore
v)	Cumulative expenditure upto Oct ,2020 (on AIBP)	Rs. 1646.633 Crore
vi)	Balance Cost as on 01.04.2020 (on AIBP)	Rs. 0.00 Crore

Central Assistance (CA) DETAILS:

	Eligible CA as on 01.04.2016 as per new PMKSY guidelines.	:	Rs. 104.897 Crore
ii)	CA released during 2016-17	:	Rs. 89.748 Crore
iii)	CA released during 2017-18	:	Nil
iv)	CA released during 2018-19	:	Nil
v)	CA released during 2019-20	:	Rs. 15.10 Crore
vi)	CA released during 2020-21	:	Nil
vii)	Balance CA to be released	:	Rs. 0.049 Crore

Target Date completion: March, 2021

ISSUES

Land acquisition: LA problem sorted out. Underground Pipelines (UGPL) system is adopted for remaining Distribution System and same is under Progress.

CADWM DETAILS:

Target date of Completion: March, 2021

Status of Inclusion under the CADWM scheme: Included

Subject: Appraisal of the Mahanadi Basin Irrigation & Multipurpose Projects from the State of Odisha-RETURN of the Projects-reg.

Reference:

1. Govt of Odisha letter no 24481 dated 20/10/2016
2. Govt of Odisha letter no CE(P)-S/I-WAPCOS-81/2012-2281/WE dated 20/06/2017
3. Govt of Odisha letter no CE(P)-WPP-175/2017/4102/WE dated 20/10/2017
4. Govt of Odisha letter no CE(P)-WPP-43/2015/3883/WE dated 17/10/2018

Sir,

Kind reference is invited to the above cited communication from the State Govt of Odisha regarding the appraisal of the project proposals. Vide the reference cited at Sr No 1 above, the State Govt of Odisha had submitted the Lower Suktel Irrigation Project (2nd RCE DPR) to PAO, CWC for necessary appraisal. Further, vide the reference cited at Sr No 2, the State Govt of Odisha had submitted the Tel Integrated Multipurpose Project (DPR) to PAO, CWC for appraisal. Vide the reference cited at Sr No 3 above, the State Govt of Odisha had submitted the Khadaga Barrage Project (PFR) to PAO, CWC for necessary appraisal and vide the reference cited at Sr No 4, the State Govt of Odisha had submitted the Telijore Irrigation Project (FR) to PAO, CWC for seeking "in-principle" clearance/consent of CWC for the preparation of DPR for the said project proposal.

In view of above, the following observations of this office may be noted:

- a. The above mentioned 4 projects from Odisha pertain to the Mahanadi River Basin and the Mahanadi Water Dispute Tribunal has been formed, vide MoWR, RD&GR Notification dated 12/03/2018, in lieu of the directions issued by the Hon'ble Supreme Court of India on 23/01/2018 to resolve the inter-state water disputes in the Mahanadi River Basin.
- b. The above projects are under various stages of appraisal in CWC currently and are pending under appraisal in CWC majorly due to the pendency of the *resolution of the inter-state matters*. Efforts have been made by CWC for the resolution of the inter-state issues between the Mahanadi and Godavari basin states. An Inter-State Meeting of the co-basin states was scheduled to be held on **12/04/2018** at CWC, New Delhi to discuss the inter-state aspects of the Major/Medium irrigation/Multipurpose projects of Odisha and Chhattisgarh in the Mahanadi Basin which could not materialise due to the unavailability of the concerned officers from the State Govt of Chhattisgarh due to some pre-scheduled programme. Further, the Inter-State meeting was again

scheduled to be held on **03/12/2018** at CWC, New Delhi. However, the Govt of Chhattisgarh, vide DO letter no 6436/F4-392/S-2/31/IS/18 dated 30/11/2018 addressed to Secretary (MoWR, RD&GR), had raised certain objections/observations to the convening of the Inter-State Meeting by CWC to discuss the inter-state aspects of the projects pertaining to the Mahanadi Basin. The State Govt of Chhattisgarh had observed that the convening of the Inter-State Meeting under the chairmanship of Chairman, CWC to resolve the inter-state water issues of the entire Mahanadi River Basin is in contravention of the orders of the Apex Court of India. In view of this, CWC was requested to defer the said Inter-State Meeting to discuss the projects in Mahanadi River Basin and the Inter-State Meeting was therefore cancelled again.

- c. With respect to the appraisal of these projects, it may noted that the various appraising units/directorates of CWC, including the Inter-State Directorate, have observed that the appraisal of the Mahanadi Basin projects cannot be processed further, until the finalization of the water availability from the Mahanadi River to each co-basin state. Thus, the appraisal cannot be carried out until the award of the Mahanadi Water Dispute Tribunal.

In view of above observations, these 4 Mahanadi Basin Irrigation & Multipurpose Projects from Odisha {namely, *Tel Integrated MPP, RCE-II of Lower Suktel Irrigation Project, PPR of Khadaga Barrage project and the FR of the Telijore Irrigation Project*} are hereby **RETURNED** to the State Govt of Odisha and it is requested that the project proposals may be submitted afresh based on the award of the Mahanadi Water Dispute Tribunal. These projects will not be considered as 'pending under appraisal' with CWC henceforth.

This issues with the approval of Competent Authority in CWC.

Yours faithfully,

Sub: 98th meeting of the Advisory Committee for consideration of techno-economic viability of Irrigation, Flood Control and Multipurpose Project proposals held on 09.07.2009.

Enclosed please find herewith a copy of the summary record of discussions of the above meeting held at New Delhi on 09th July, 2009 at Sewa Bhawan, R. K. Puram, New Delhi for information and necessary action.

Encl.: As above.

(U. K. Ghosh)
Chief Engineer (PAO)

To

Members of Committee:

1. Chairman, CWC, Sewa Bhawan, R. K. Puram, New Delhi.
2. Secretary (Expenditure), Ministry of Finance, (1st Floor) North Block, New Delhi.
3. Secretary, Department of Power, S.S. Bhawan, IInd Floor, New Delhi.
4. Secretary, Ministry of Environment & Forests, 4th Floor, Room No- 404/05 Paryavaran Bhawan, CGO Complex, New Delhi.
5. Secretary, Ministry of Tribal Affairs, Room No. 738, A-Wing, Shastri Bhawan, New Delhi.
6. Secretary, Department of Agriculture & Cooperation, Room No 126, Krishi Bhawan, New Delhi.
7. Director General, ICAR, Room No-108, Krishi Bhawan, New Delhi.
8. Chairman, CEA, Sewa Bhawan, R. K. Puram, New Delhi.
9. Chairman, Central Ground Water Board, Jam Nagar House, ManSingh Road, New Delhi.
10. Principal Adviser (WR), Planning Commission, Room No-255, Yojana Bhawan, New Delhi.
11. Principal Adviser (Power), Planning Commission, Room No-107 Yojana Bhawan, New Delhi.
12. Financial Adviser, Ministry of Water Resources, Room No-401 S.S. Bhawan, New Delhi.

Special Invitees:

13. Member (WP&P), CWC, New Delhi.
14. Member (D&R), CWC, New Delhi.
15. Member (RM), CWC, New Delhi.
16. Chairman, GFCC, 3rd Floor, Sinchai Bhawan, Patna-800015
17. Commissioner (Projects), Room No-411, S.S. Bhawan, MoWR, New Delhi.
18. Commissioner (Ganga), Ministry of Water Resources, CGO Complex, New Delhi.
19. Commissioner (Indus), Ministry of Water Resources, CGO Complex, New Delhi.
20. Principal Secretary, Irrigation Department, Government of Uttar Pradesh, Sachivalaya Annexe, Lucknow-226 001 (U.P.).
21. Engineer-in-Chief, U.P. Irrigation, Govt. of U.P., Lucknow (U.P.).
22. Secretary, Water Resources Deptt, Govt of Maharashtra, Mantralaya, Mumbai, 400032.
23. Secretary, Irrigation Department, Government of Karnataka, M.S. Building, 6th Floor, Karnataka Government Secretariat, Dr. Ambedkar Veedhi, Bangalore-560 001.
24. Engineer-in-Chief, WRD, Govt. of Karnataka, Bangalore.
25. Principal Secretary, Narmada Valley Development Authority, Arera Hills, Bhopal

25. Secretary (Water Resources), Government of Chhattisgarh, D.K. Bhawan, Sachivalaya, Raipur-492 010 (Chhattisgarh).
27. Engineer-in-Chief, WRD, Sehawa Bhawan, Civil Lines, Raipur (Chhattisgarh)
28. Secretary (Water Resources), Government of Orissa, Secretariat, Bhubaneswar-751 001 (Orissa).
29. Engineer-in-Chief, WRD, Secha Sadan, Bhubaneswar, Orissa-571 001
30. Principal Secretary, Irrigation Department, Government of Punjab, Secretariat, Chandigarh-160 001.
31. Chief Engineer (PMO), CWC, New Delhi.
32. Chief Engineer (YBO), Yamuna Basin, CWC, B-5, Tara Crescent Rd, Qutab Institution Area, New Delhi- 110016.

SUMMARY RECORD OF DISCUSSIONS OF THE 98TH MEETING OF THE ADVISORY COMMITTEE ON IRRIGATION, FLOOD CONTROL AND MULTI PURPOSE PROJECTS, HELD ON 9TH JULY, 2009 FOR CONSIDERATION OF TECHNO-ECONOMIC VIABILITY OF PROJECT PROPOSALS.

The 98th meeting of the Advisory Committee for consideration of Techno-Economic viability of Irrigation, Flood Control and Multi-purpose Project proposals was held on 09.07.2009 at 1500 Hrs. in the Conference Room of Central Water Commission, Sewa Bhawan, R.K. Puram, New Delhi under the Chairmanship of Secretary (WR). List of participants is enclosed at Annexure-I.

At the outset, Chairman welcomed the Members of the Committee and other Officers present and thereafter requested the Member-Secretary to take up the agenda for discussion. The items discussed and decisions taken are as follows:

A) CONFIRMATION OF THE MINUTES OF THE 97TH MEETING:

The Summary Record of Discussions of the 97th Advisory Committee meeting was circulated vide Lr. No.16/27/2008-PA (N)/649-75, dated 13th April, 2009. Member-Secretary informed the Committee that no comment on the same has since been received. The Committee confirmed the Summary Record of Discussions of the 97th Advisory Committee meeting.

B) PROJECT PROPOSALS PUT UP FOR CONSIDERATION OF THE ADVISORY COMMITTEE:

1) Flood Protection works along the Right Bank of River Gandak in Distt - Kushinagar, UP:

CE (PAO), CWC briefly introduced the project proposal which envisages altogether 16 components. The main works include:

- i) Restoration of Chitauni Bund from 0.0 to 2.75 km.
- ii) Raising, widening and pitching of Amwa Khas Bund from 0.0 to 10.065 km.
- iii) Construction of new spurs 9 Nos.
- iv) Constructions of studs – 21 Nos.
- v) Restoration and strengthening of miscellaneous structural components.

All the 16 components of the project proposals have got approval of the state TAC as well as state Flood Control Steering Committee. Particulars of all the 16 components are enclosed at Annexure-II.

The project proposal has been appraised in Ganga Flood Control Commission (GFCC) and the estimated cost finalized for Rs. 6370.22 lakhs with B.C. ratio as 3.47:1. The proposed area to be protected is 1.45 lakh ha with the break-up as under;

Chhitauni Bund & Katai Bharpurwa	: 109816 ha
Amwa Khas Bund	: 8050 ha

No. 16/27/2000
Narwajot Bund & Ahiraulidan Pipraghat Bund : 27498.04 ha

Chairman enquired about the reason for high value of the B.C. ratio.

Chairman, GFCC, explained in brief the methodology of B.C. ratio calculation for flood control projects which was further elaborated by Member (RM), CWC.

After a brief discussion, the Committee accepted the proposal.

2) Flood Protection Works along Left & Right bank of River Ghaghra in district - Bahraich, Barabanki, Gonda, Basti, Faizabad & Mau, UP:

CE (PAO), CWC briefly introduced the project proposal which envisages 25 components of works. The main works of the project proposals include:

- i) Construction of 10.05 km long marginal embankment along right bank of river Ghaghra.
- ii) Raising and strengthening of 48.575 km long marginal embankment along both left and right banks of river Ghaghra.
- iii) Construction of 41 Nos. spurs 2 Nos. studs and 5 Nos. dampners.
- iv) Construction of 4 Nos. regulators on marginal embankment along right bank of river Ghaghra.

The scheme has been cleared by the state TAC and Steering Committee of state Flood Control Board. The details of components of works are enclosed at Annexure-III.

The project proposal has been appraised in GFCC and the estimated cost has been finalized for Rs. 110.00 cr. with B.C. ratio 4.08:1. The area to be protected from the project is 48,612 ha against affected area of 91,719 ha.

Chairman queried about the basis of various component of works included in the project proposal.

The project authorities informed that a team of technical experts as well as officers of GFCC visited the project sites and recommended the flood protection works which have been incorporated in the project proposal.

After a brief discussion, the Committee accepted the proposal.

3) Minimata (Hasdeo) Bango Multipurpose Project (revised), Chhattisgarh:

CE (PAO), CWC briefly introduced the project proposal. He mentioned that the project is being implemented in 4 phases and the present proposal is phase-IV of the project which is for completion of the balance works of phase-III. Earlier, the phase-IV of the project was approved by the Planning Commission for Rs. 1312.32 cr. (SOR-

2002-03). The present cost estimate is a revised one for Rs. 1660.88 cr (SOR-2008-09) without change in scope, with B.C. ratio as 3.10:1.

Member (WP&P), CWC enquired about the provision of water kept for the industries in the project proposal. The project authorities informed that water requirement of Korba Thermal Power Station and other industrial requirements are being met from this project for which 441 MCM of water has been provided for.

Chairman pointed out that the state finance concurrence (SFC) for the estimated cost has not yet been obtained.

The project authorities intimated that the same would be made available within a day or two. They further intimated that the project would be completed by June 2010 without further increase in the cost.

The SFC from the state government has been received.

After a brief discussion, the Committee accepted the proposal.

4. Restoration and Renovation of Bheemasamudra Tank and its canals, Karnataka:

CE (PAO), CWC briefly introduced the project proposal. It is an old irrigation tank presently under medium irrigation sector. The original command of the tank was 2050 ha which has now reduced to 1250 ha. The project proposal is for restoration of the command to its original size of 2050 ha envisaging the following works:

1. Three Nos. feeder canals for augmentation of flow into the Bheemasamudra Tank.
2. Renovation of canal system.
3. Various repair works, pipe crossings in the canal system.
4. Catchment Area Treatment.

The project has been examined in Central Water Commission and the cost of the project has been finalized for Rs. 9.375 cr with B.C. ratio as 1.029:1. The project has been taken under Prime Minister's package for mitigating distress of farmers of identified drought prone districts of Karnataka. The project benefits Chitradurga district of Karnataka.

Commissioner (PR) pointed out that design flood for the project has not been worked out for the proposal.

The project authorities informed that they have estimated design flood, based on Dicken's formula which has already been submitted to CWC. It has been noted that the existing capacity of the spillway is 200 cumec against the design flood value of 146

cumec. The project authorities further intimated that the original Bheemasamudra Tank project was about 500 years old and so far withstood all the floods passed over it.

State Finance Concurrence has been obtained for the project.

After a brief discussion, the Committee accepted the proposal.

5. Punasa L.I.S. (Major Revised), Madhya Pradesh:

CE (PAO), CWC briefly introduced the project proposal. The project proposal envisages for direct lifting of water from Indira Sagar Project reservoir to irrigate command area of 35,008 ha in drought prone areas of East Nimar district of Madhya Pradesh and providing drinking water supply of 4.216 MCM annually to the villages in the command area. The original project proposal was approved by Planning Commission for Rs. 185.03 cr (PL 2003). The present revised estimate has been finalized in CWC for Rs. 488.06 cr (PL 2008) with B.C. ratio of 1.29:1.

State Finance Concurrence for the proposal has been obtained.

Chairman pointed out that B.C. ratio of the project is on lower side.

The project authorities informed that the project is benefiting the drought prone areas of Madhya Pradesh wherein, the value of B.C. ratio of 1.29:1 is acceptable as per the guidelines. They further explained that the cost of power generation (15 MW) has also been included in the cost of the project which has somewhat affected the B.C. ratio value.

Chairman enquired about the completion target of the project.

The project authorities informed that the project would be completed by 2010-11.

After a brief discussion, the Committee accepted the proposal.

6. Dongargaon Tank Project (Medium Revised Estimate), Maharashtra:

CE (PAO), CWC briefly introduced the project mentioning that earlier the original proposal was approved by Planning Commission in 1981 for Rs. 2.15 cr (PL-1980-81) to benefit CCA of 3630 ha and annual irrigation of 3737 ha in drought prone area in Chandrapur district of Maharashtra. The present proposal is a revised estimate with change in scope in CCA from 3630 ha to 2845 ha with annual irrigation of 3942 ha. The project proposal includes:

- i) an earthen dam, 474 m. long, across Dongargaon nallah in Chandrapur district of Maharashtra and
- ii) 6.845 km long right bank canal with command of 2845 ha.

The revised estimate has been examined in Central Water Commission and finalized for Rs. 67.03 cr (PL 2007-08) with B.C. ratio of 1.813:1.

State Finance Concurrence for the project has been obtained.

Chairman enquired about the physical progress of the project.

The project authorities intimated that the project is in advance stages of construction and main works have already been completed. It was also clarified by the project authorities that tenders for remaining works have already been awarded as per 2007-08 schedule of rates.

After a brief discussion, the Committee accepted the proposal.

7. Krishna Koyna L.I.S (New Major), Maharashtra:

CE (PAO), CWC briefly introduced the project. The project proposal envisages lifting of a total of 26.78 TMC of water from river Krishna at two locations to benefit a total CCA of 1.72 lakh ha with annual irrigation of 1.21 lakh ha. The proposed water use is within the KWDT award.

The project was considered in the 42nd TAC meeting held in Jan. 1989 and was accepted for Rs. 259.10 cr subject to conditions. However, investment clearance by Planning Commission for the project was not accorded for want of compliance by the project authorities. Subsequently, the project was again considered in the 90th meeting of Advisory Committee, but the same was deferred for want of environmental clearance.

The project authorities have now obtained the requisite environmental clearance of MoEF as well as formal approval of MoEF for diversion of 19.75 ha of forest land. The project proposal has been scrutinized in CWC and the estimated cost of project has been finalized for Rs. 2224.76 cr at (PL-2006-07) with B.C. ratio of the project as 1.73:1.

Chairman pointed out that the estimated cost of the project has been based on SOR 2006-07 whereas the same could have been finalized based on the latest SOR of the state government.

The project authorities informed that since the environmental clearance was received only on 1st July, 2009, there was hardly any time left for updation of the cost at current price level. They also intimated that more than 50% of the works involving major components has already been completed and the remaining expenditure would be incurred mainly for distribution network.

Member (WP&P), CWC, enquired about the reason for not making provision for drinking water in the project proposal.

The project authorities explained that as per the policy of the state government, no provision for drinking water would need to be made under lift irrigation schemes. They have also intimated that the drinking water supply in the command area of Krishna-Koyna L.I.S has already been planned from a number of medium, minor and percolation tanks existing in the command of the project.

Director, Finance (MoWR), pointed out that as the completion date of the project has been indicated by the project authorities as 2013-14, whether it would be possible to complete the project within the present estimated cost.

The project authorities assured that there would not be any further increase in the project cost which they have subsequently confirmed through official communication before issue of the minutes (copy enclosed as Annex-IV).

State Finance Concurrence for the project proposal has been obtained.

After a brief discussion, the Committee accepted the proposal.

3. Kanupur Irrigation Project (Major – revised), Orissa:

CE (PAO), CWC briefly introduced the project proposal and mentioned that the original Kanupur Irrigation Project was accorded investment clearance by the Planning Commission in Sept. 2002 for estimated cost of Rs. 428.32 cr (PL 1998) to benefit CCA of 29,578 ha with annual irrigation 47,709 ha. The project mainly envisages construction of a 3460 m long earthen dam across river Baitarani and an unlined right bank canal system with distribution network up to 5.0 ha block.

The present estimate is a revised cost estimate without any change in scope. The cost estimate has been finalized by CWC for Rs. 1067.51 cr (PL 2008) with B.C. ratio as 2.368:1. SFC for the revised cost estimate has already been obtained.

Chairman observed that the cost of development of irrigation in this project as Rs. 3.60 lakh/ha is on higher side while the B.C. ratio for the project has been worked out as 2.368:1 which is also on higher side.

The project authorities explained that the cost of the project has substantially increased mainly due to the revised R&R policy of 2006 of the state government. As regards B.C. ratio, the figure has gone up mainly due to much higher yield value (11.5 T/ha) taken against HYV paddy, by mistake.

The project authorities submitted corrected data for revised B.C. ratio calculation which has been worked out to be 1.68:1.

After a brief discussion, the Committee accepted the proposal.

9. Upper Indravati Extension Project – left ayacut beyond river Tel and right ayacut beyond river Sagada, (Major Revised), Orissa:

CE (PAO), CWC briefly introduced the project proposal. The Upper Indravati Extension Project is basically continuation of old Upper Indravati project located in KBK region of Orissa. The extension proposal is for additional CCA of 25,484 ha with annual irrigation of 41,794 ha. The original extension proposal was approved by the Planning Commission in March 2003 for Rs. 136.67 cr at (PL-1998). The present revised cost estimate is without change in scope. The revised cost has now been finalized for Rs. 564.77 cr with B.C. ratio as 2.65:1. The State Finance Concurrence for the revised estimate has been obtained.

After a brief discussion, the Committee accepted the proposal.

10. Lower Indra Irrigation Project (Major Revised), Orissa:

CE (PAO), CWC briefly introduced the project proposal. The original proposal of Lower Indra Irrigation Project was accorded investment clearance by the Planning Commission in Feb. 1999 for Rs. 211.70 cr (PL-1997).

The project proposal envisages an earthen dam, 3780 m long, on river Indra with right bank canal system and left bank canal system for a CCA of 29,900 ha with annual irrigation of 38,870 ha. The first revised cost estimate without change in scope was accorded investment clearance by Planning Commission in Jan. 2009 for Rs. 521.13 cr (PL-2004). The present revised cost estimate without any change in scope has been finalized for Rs. 1182.23 cr (PL-2008) with B.C. ratio as 1.16:1. The project being in KBK region of Orissa, the value of B.C. ratio is acceptable.

SFC for the revised estimated has been obtained.

After a brief discussion, the Committee accepted the proposal.

11. Subarnarekha Irrigation Project (Major-revised), Orissa:

CE (PAO), CWC briefly introduced the project proposal. This is an inter-state project with Jharkhand and West Bengal. The original project was accorded investment clearance by the Planning Commission in Dec. 1995 for Rs. 790.32 cr for the work components in Orissa only, to benefit a CCA of 1.09 lakh ha with annual irrigation of 1.87 lakh ha. The present revised cost estimate without change in scope has been finalized for Rs. 4049.93 cr. including share cost of Rs. 817.52 cr to be borne by Orissa for the works in Jharkhand. The B.C. ratio of the revised cost estimate has been worked out to be 2.14:1.

State Finance Concurrence for the revised estimated has been obtained.

Chairman enquired about the reason for not including share cost of Orissa for the works in Jharkhand in the earlier sanctioned estimate.

Member (WP&P), CWC explained that although the Subemarekha project in Orissa portion had the investment clearance by the Planning Commission earlier, the Subemarekha project in Jharkhand did not have the approval due to pending issues regarding forest and wild life clearances from MoEF. He further intimated that the Govt. of Jharkhand has recently obtained the requisite clearance from MoEF and their proposal would be reconsidered on submission of the revised proposal after revision of the cost as per current SOR. He further added that there was no issue related to environment and forest clearances in the stretches where the carrier main canal for Orissa from Galudi Barrage to Orissa state border being constructed.

After a brief discussion, the Committee accepted the proposal.

12. Relining of Rajasthan Feeder from RD 179000 to 496000, Punjab, Major New – ERM, Rajasthan:

CE (PAO), CWC briefly introduced the project proposal. Rajasthan Feeder has its off-take in the upstream of Harike head works across just downstream of the confluence of the Sutlej and the Beas rivers in Punjab. The Rajasthan Feeder has its entire command in the state of Rajasthan.

The canal was constructed as lined during late 50s to mid 60s. However, due to seepage from the canal as well as damages in the canal lining, irrigation in Rajasthan has been affected as well as about 84800 ha of land in Punjab has been facing water logging problem.

The present proposal is for relining of Rajasthan Feeder from RD 179000 to 496000 in order to stabilize irrigation in Rajasthan as well as for reclamation of waterlogged area in Punjab. The proposal has been scrutinized in Central Water Commission and the estimated cost finalized as Rs. 952.10 cr with BC ratio 2.12:1.

The State Finance Concurrence for the project proposal has been obtained.

Member (WP&P), CWC pointed out that Govt. of Rajasthan communicated that period of canal closure should not be more than 21 days. He enquired to know from the project authorities about the alternate ways of maintaining uninterrupted water supply to Rajasthan while the relining works would be undertaken. The project authorities informed that they are exploring the technology for concrete lining under running water so that supply of water to Rajasthan will not be affected. Member (WP&P) emphasized that closure of canal should be done with consent of Rajasthan government.

After a brief discussion, the Committee accepted the proposal with observation that a joint committee comprising of representatives from both Punjab and Rajasthan

may be set up to decide upon cost sharing as well as to look into the concern of Rajasthan regarding canal closure during implementation of the project.

13. Relining of Sirhind Feeder from RD 119700 to 447927, (Major-New – ERM), Punjab:

CE (PAO), CWC briefly introduced the project proposal. The Sirhind Feeder has its off-take in the upstream of Harike head works constructed across just downstream of the confluence of the Sutlej and Beas rivers. The Sirhind was constructed simultaneously with Rajasthan Feeder during late 50s to mid 60s. The Sirhind Feeder has its command in Punjab as well as in Rajasthan.

The Sirhind Feeder was constructed as lined canal similar to Rajasthan Feeder. However, due to seepage loss, as well as, damages in the canal lining, the adjoining areas to the canal have been affected by the water logging, thereby reducing irrigation capacity of the canal. The present project proposal is for relining of canal from RD 119700 to 447927 in order to stabilize irrigation as well as to check water logging. The estimated cost of the project has been finalized for Rs. 489.165 cr (PL-2008) with B.C. ratio as 2.67:1 which will benefit an area of 34,548 ha in Punjab.

State Finance Concurrence for the project proposal has been obtained.

After a brief discussion, the Committee accepted the proposal with observation that a joint committee comprising of representatives from both Punjab and Rajasthan may be set up to decide upon cost sharing as well as to look into the concern of Rajasthan regarding canal closure during implementation of the project.

14. Eastern Ganga Canal Project (Revised Major), UP

The Eastern Ganga Canal project located in Haridwar district of Uttarakhand and Bijnour and Jyotiba Phule Nagar districts of UP envisages utilization of the surplus monsoon flow of river Ganga for development of kharif cultivation.

CCA of the project: 2.32 lakh ha.
Annual Irrigation 1.05 lakh ha.

The project was originally approved by the Planning Commission for Rs. 48.46 cr (PL-1979) in March 1980. Subsequently, the cost estimate was revised which was accepted by the Advisory Committee of MoWR for Rs. 258.48 cr in its 56th meeting held in Nov. 1993 with conditions. However, the same did not have investment clearance by Planning Commission later on.

The present proposal is the revised cost estimate (PL-2008) which has been examined and the cost finalized for Rs. 892.44 cr (PL-2008) with B.C ratio of 1.51:1.

Approval of the Expenditure Finance Committee for the project proposal has been obtained.

After a brief discussion, the Committee accepted the proposal.

15. Modernisation of Lachura Dam

The Lachura Dam was constructed during 1906-1910 across river Dhasan, a tributary of Betwa River. The original proposal of 'Modernisation of Lachura Dam' was accorded investment clearance by the Planning Commission for Rs. 8.53 cr. in April, 1980. Subsequently, a revised proposal was also accorded investment clearance by Planning Commission for Rs. 88.30 cr in May, 2005.

The present revised cost estimate, without change in scope, has been finalized for Rs. 299.36 cr (SOR-2008) with B.C. ratio as 1.29:1. The B.C. ratio is acceptable as the benefited area falls under DPA in Jhansi district.

Approval of the Expenditure Finance Committee for the project proposal was obtained earlier in Oct. 08 for Rs. 257.01 cr which is less than the currently appraised estimated cost of Rs. 299.36 (SOR-2008).

After brief discussion, the Committee advised the project authorities to obtain revised approval of Expenditure Finance Committee for the currently appraised estimated cost of Rs. 299.36 cr for considering the proposal in the next meeting of the Advisory Committee.
