Draft No. DFA/140180

About the workshop:

The workshop is organized and supported under the Aegis of the Indian Water Resources Society. It aims to impart knowledge on the basics of machine learning tools and their applications in water resources management. The workshop will cover theoretical concepts, basic coding in MATLAB, and hands-on practical sessions using real-world data.

Course Coordinators:

Prof. Kasiviswanathan KS

Prof. Deepak Khare

Prof. Basant Yadav

Department of Water Resources Development and Management,

IIT Roorkee

Course Content:

The workshop will cover the following topics:

- > Introduction to AI and ML models
- Demonstration of simulation models
- Overview of ML models
- Steps in developing ANN models
- Model calibration-validation
- > Hands-on Session: Developing ANN models for real case studies

How to reach IIT Roorkee

Roorkee is well connected to Delhi and Dehradun by rail and road. The nearest airport is located at Jollygrant, Dehradun. However, New Delhi is the preferred airport.

Department of Water Resources Development and Management

The department was established in 1955 as an Asian African Centre to honor India's commitment at the Asian African Conference held in Bandung, Indonesia. Since its inception, the Department of Water Resources Development & Management, IIT Roorkee, has played a pioneering role in actively imparting knowledge and practical training on management of water resources to the students and in-service personnel from multiple engineering backgrounds.

Indian Water Resources Society

Indian Water Resources Society (IWRS) was founded in 1980 as a society registered under the Societies Registration Act. IWRS Registered office is located in the Water Resources Development Training Center, I.I.T. Roorkee. IWRS aims at advancement of knowledge in technical and policy aspects of water resources development and management.
