

CIRCULAR

It has come to notice that a increasing number of malicious activities and cyber-attacks are being reported in many regional offices of CWC. To avoid such attacks the following actions are strongly recommended at the regional office level at the earliest

1. It may be ensured that the latest version of antivirus has been installed/updated in all desktop systems.
2. A suitable firewall may be installed in the network system.

Further in case any such cyber attack is reported/observed, the targeted computer may be examined immediately and appropriate steps may be taken to sanitize the device such as full scan and to change the password of targeted computer. Further, root-cause analysis may also be carried out and sample of malware, other relevant information be shared directly to Indian Computer Emergency Response Team (CERT-In) under intimation to this office. Further users may refer Cyber security related documents available on CWC website in employee corner.

This issue with the approval of competent authority.

Yours faithfully,

(Amitabh Tiwari)
Deputy Director

To,

All Field Chief Engineers (Through CWC website circular).
