# FARMERS GEAR UP FOR YASANGI CROPS

With sufficient availability of water, ryots take up sowing in erstwhile Warangal district

A farmer working in his agricultural field in erstwhile Warangal district as farm operations pick up pace.

P LAXMA REDDY  
WARANGAL

With sufficient availability of water in tanks, ponds and reservoirs including major ones like Sri Rama Sagar Project (SRSP) and Lower Manair Dam (LMD), farmers in combined Warangal district are gearing up for Yasangi (Rabi) season crops. While green gram, Bengal gram, black gram, groundnut and maize have already been sown in thousands of acres, farmers have also started growing paddy nurseries in the district.

According to agriculture officials of six districts in

erstwhile Warangal, crops including paddy are likely to be cultivated in 6,69,711 acres. It is estimated that crops will be cultivated in 1,32,805 acres in Warangal Urban district, while 2,34,200 acres will be brought under cultivation in Warangal Rural district and crops will be grown in 1,02,104 acres in Mahabubabad district.

In Mulugu, officials estimate that crops will be cultivated in 64,481 acres, while 44,937 acres would be brought under cultivation for Yasangi in Bhupalpally district. In Jangaon, it is estimated that crops will be

grown in 91,184 acres. Speaking to Telangana Today, District Agriculture Officer (DAO), Mulugu, Ghouse Hyder said they were expecting that paddy alone would be cultivated in 56,341 acres in the district for Yasangi. "We need a total of 33,649.5 metric tonnes (MTs) of fertiliser for Yasangi crops in Mulugu district. They include Urea, DAP, MOP, NPK and SSP," he said, adding that they were on the job to make the fertilisers available to the farmers soon.

Meanwhile, officials of Warangal Rural stated that Bengal gram, green gram,

black gram, groundnut and maize were already sown in a total of 6,301 acre. "Though the State government asked the farmers not to go for cultivation of maize, it was sown in 2,527 acres in Warangal Rural district," said an official.

According to the irrigation officials, 897 tanks in the erstwhile district were filled with water from Kaleshwaram Lift Irrigation Scheme (KLIS), Devadula Lift Irrigation Project, and SRSP. At least 1,459 tanks were also brimming following the abundant rainfall received in the district during the monsoon season.

## Light rain in Delhi likely over next 2 days: IMD

AGE CORRESPONDENT  
NEW DELHI, DEC. 10

The national capital and its neighbouring cities are likely to receive light rainfall over the next two days under the influence of a fresh western disturbance passing over the Himalayas, the weather department said on Thursday.

Jammu and Kashmir, Himachal Pradesh and Uttarakhand have also received a fresh spell of snowfall due to the western disturbance.

"After the western disturbance withdraws, icy cold northwesterly winds blowing from snow-laden Himalayas will bring temperatures down in the plains," an official of the India Meteorological Department (IMD) said.

The minimum temperature is expected to drop to 8 degrees Celsius by Monday, according to an IMD forecast. The city recorded a minimum temperature of 10.9 degrees Celsius on Thursday.

The maximum temperature is likely to settle around 29 degrees Celsius.

Delhi's air quality was recorded in the "very poor" category, and is likely to improve over the next two days due to a predicted increase in the wind speed and light rain.

The city's air quality index (AQI) was 304 at 10 am. The 24-hour average AQI was 358 on Wednesday.

An AQI between zero and 50 is considered "good", 51 and 100 "satisfactory", 101 and 200 "moderate", 201 and 300 "poor", 301 and 400 "very poor", and 401 and 500 "severe".

# J&K, Himachal, Uttarakhand receive fresh spell of snowfall

*In Kashmir, Gulmarg was the only place which recorded sub-zero minimum temperature*

## OUR CORRESPONDENT

**NEW DELHI:** High reaches of Himachal Pradesh, Jammu and Kashmir and Uttarakhand received a fresh spell of snowfall on Thursday, while minimum temperatures in plains are likely to drop after the withdrawal of a western disturbance.

Lahaul-Spiti in Himachal Pradesh received fresh snowfall in 24 hours till Thursday morning, while some parts of the state witnessed rain, the Meteorological Department said.

Keylong in Lahaul-Spiti was the coldest place in the state at minus 2.3 degrees Celsius and it received 15 cm snowfall, Shimla Met centre director Manmohan Singh said.

The rain lashed Tissa (24 mm), Kothi (17 mm), Bharmour (16 mm), Saloni (11 mm), Manali (8 mm), Dalhousie (7 mm) and Dharamshala (6 mm).

Kalpa in Kinnaur district

recorded a low of 1.3 degrees Celsius, while minimum temperature in Manali and Kufri was 5 degrees Celsius each.

Dalhousie and Shimla recorded a low of 6.2 degrees Celsius and 7.9 degrees Celsius, respectively.

The highest temperature in the state was recorded in Una at 27.5 degrees Celsius.

The weatherman has forecast rain in plains and low hills, and rain and snowfall in middle and high hills on Friday and Saturday.

In Kashmir, Gulmarg (minus 5.4 degrees Celsius) was the only place which recorded sub-zero minimum temperature.

The remaining weather stations in the valley, including Pahalgam, recorded the minimum temperature above the freezing point. The night temperature in Srinagar settled at a low of 3.9 degrees Celsius, the officials said.

The night temperature

**View of Trilokinath area after the town received fresh snowfall, at Udaipur in Lahaul-Spiti, Himachal Pradesh, on Thursday**

across the valley was above the normal for this part of the season, they said.

The Met office has forecast widespread moderate rain and snow at isolated places.

The rain and snow is likely to continue for two days after which the weather is likely to remain mainly dry for a few days, the officials said.

The minimum temperatures hovered above normal limits in Haryana and Punjab.

Chandigarh, the common capital of the two states, recorded a low of 11.2 degrees Celsius, five notches above the normal for this part of the year, it said.

In Haryana, Ambala recorded a minimum of

11.6 degrees Celsius, up four notches against the normal, while Karnal registered a low of 11.8 degrees Celsius, which is three notches above the normal.

Amritsar in Punjab recorded a minimum temperature of 8.8 degrees Celsius, four notches above the normal.

Ludhiana recorded a low of 12.8 degrees Celsius, up five notches against the normal limits, while Patiala's minimum settled at 12.4 degrees Celsius, four degrees above the normal.

Uttar Pradesh too witnessed dry weather with dense to very dense fog at isolated places. Jhansi recorded the highest maximum temperature in the state at 32.9 degrees Celsius, while Fatehgarh was the coldest at 6.7 degrees Celsius.

The weatherman has forecast dry weather over eastern UP, and rain and light thunderstorm at isolated places over western part of the state on Friday.

देश में जल संकट से निपटने की योजनाओं पर चर्चा

# जल प्रबंधन-सुरक्षा पर अंतरराष्ट्रीय सहयोग मजबूत बनें

हरिभूमि ब्यूरो ► नई दिल्ली

इंडिया वाटर इम्पैक्ट समिट में बोले केंद्रीय जलशक्ति मंत्री शेखावत

देशभर में जल निकायों, स्थानीय नदियों के व्यापक विश्लेषण और प्रबंधन समेत जल सुरक्षा और प्राकृतिक जल निकायों के कायाकल्प पर चर्चा के लिए शुरू हुए 5वें इंडिया वाटर इम्पैक्ट समिट में राष्ट्रीय नदी गंगा से संबंधित आर्थिक गतिविधियों पर ध्यान केंद्रित करने के साथ ही नदी क्षेत्र में रोजगार सृजन को बढ़ाने के विषय पर विस्तृत चर्चा की गई। राष्ट्रीय राष्ट्रीय स्वच्छ गंगा मिशन और सेंटर फॉर गंगा रिवर बेसिन मैनेजमेंट एंड स्टडीज द्वारा संयुक्त रूप से गुरुवार को पहली बार वर्चुअल तरीके से 'अर्थ गंगा' की थीम पर शुरू हुए 5वें इंडिया वाटर इम्पैक्ट समिट का उद्घाटन केंद्रीय जलशक्ति मंत्री गजेंद्र सिंह शेखावत ने किया।

**नदी क्षेत्र में  
रोजगार पर की  
गई चर्चा**

इसलिए 15 दिसंबर तक चलने वाले इस सम्मेलन में इस बार राष्ट्रीय नदी गंगा से संबंधित आर्थिक गतिविधियों पर ध्यान केंद्रित करने के साथ ही नदी क्षेत्र में रोजगार के अवसर को बढ़ाने के विषय पर विस्तृत चर्चा की गई। इस मौके पर केंद्रीय जलशक्ति मंत्री गजेंद्र सिंह शेखावत कहा कि नमामि गंगे मिशन नदियों के संरक्षण का सबसे बड़ा मिशन है और इसका उद्देश्य सिर्फ गंगा नदी की स्वच्छता नहीं है बल्कि यह समग्र नदियों की स्वच्छता पर केंद्रित है, जो नदियों के कायाकल्प की दिशा में एक बेहतर बुनियादी ढांचा तैयार कर रहा है।

**भविष्य की जरूरतों को देखकर किया गया विकसित**

उन्होंने कहा कि इस शिखर सम्मेलन का उद्देश्य प्रधानमंत्री नरेंद्र मोदी जी के विजन के अनुरूप हम राष्ट्रीय नदी गंगा के संरक्षण अलावा इसे अर्थव्यवस्था के साथ भी जोड़ रहे हैं। मसलन 'अर्थ गंगा' परियोजना की को बढ़ावा देने और इसके प्रसार के विषय पर भी तेजी से कार्य कर रहे हैं। उन्होंने कहा कि यह समिट जल क्षेत्र में भारत के अंतराष्ट्रीय सहयोग को मजबूत करने के लिए बहुत ही महत्वपूर्ण

साबित होगी। कार्यक्रम में जल शक्ति राज्यमंत्री रतन लाल कटारिया ने जोर देते हुए कहा कि केंद्र की सरकार प्रधानमंत्री नरेंद्र मोदी जी के नेतृत्व में सतत विकास की दिशा में काम कर रही है। उन्होंने कहा कि इस बात को ऐसे समझा जा सकता है कि हमने सभी सीवेज ट्रीटमेंट प्लांट्स की क्षमता को भविष्य की जरूरतों को ध्यान में रखते हुए ही विकसित किया है।
