KRMB tells AP to submit DPRs of new projects

STATE BUREAU

Hyderabad

The Krishna River Management Board (KRMB) has asked the Andhra Pradesh government to furnish views and submit the Detailed Project Reports (DPRs) of the proposed irrigation schemes and projects immediately to it.

In a letter to the Engineer-in-Chief, Andhra Pradesh Water Resources Department, KRMB member DM Raipure referred the letter received from the Engineer-in-Chief, Telangana Irrigation and Command Area Development (CAD) C Muralidhar requesting the board to re-

strain AP from unauthorised enhancement of scope for surplus water based projects including Telugu Ganga Project (TGP) and Veligonda project by AP government in violation of provisions of Andhra Pradesh Reorganisation Act (APRA) - 2014.

Muralidhar complained to the KRMB that taking up surplus based projects including TGP and Veligonda would be detrimental to the interests of projects in Telangana serving acute drought-prone fluoride affected basin areas apart from the settled ayacuts of Nagarjuna Sagar Project command downstream of Srisailem project in addi-

tion to the drinking water needs of Hyderabad. Moreover, Telangana was pleading before the Krishna Water Disputes Tribunal-II (KWDT-II) to allocate water giving priority to the inside in basin projects. Further, the very question of allowing Pothireddypadu Head Regulator (PRP HR) during flood flows is under adjudication by the KWDT-II under Section 89 proceedings.

Muralidhar requested the KRMB to restrain AP from modifying the scope of TGP and adding new components based on the Krishna waters without proper approvals from officials concerned.

Rain fury across northern TS

Three washed away in separate incidents; Karimnagar, Nizamabad and Warangal bear the brunt

STATE BUREAU
HYDERABAD

At least three persons, including a 7-year-old, were washed away in separate incidents as heavy rains continued to lash several areas, especially those in the northern districts of the State, paralysing normal life and snapping road connectivity on Tuesday.

Two persons — Kudukala Gangamallu and his seven-year-old son Vishnuvardhan were washed away in floodwaters near Mallannapet of Gollapalli mandal of Jagtial district. Gangamallu and his son Vishnuvardhan went to Mallannapet on a two-wheeler. On their way back, they got washed away in the floodwater while crossing a low-level bridge between Vengalapur-Mallannapeta. Their bodies were fished out by police.

In another incident, three shepherds along with 350 sheep got stranded on an island surrounded by floodwaters near Vemulakurthi in Ibrahimpatnam mandal of Jagtial district. Residents of Vemulakurthi — Basa Somanna, Alkunta Lasmanna and Nemuri Chinna Ashanna went to an island in River Godavari four days ago. Their attempts to cross the river on Tuesday turned

futile as SRSP project gates were opened to release water downstream.

At Siddipet, a person was reportedly washed away in floodwaters at Pocharamji village. Locals managed to retrieve the body. The erstwhile districts of Karimnagar, Nizamabad and Warangal bore the brunt of heavy

rains as many low-lying areas were inundated, road connectivity got snapped and normal life was affected. With rivulets, streams, lakes and other water bodies overflowing, rainwater entered many residential areas. In Warangal, Lakshmanapathi colony, Madhura Nagar, Santoshimatha

colony, NTR Nagar, Brundavan Colony, Sai Nagar, Mysaiah Nagar, Kashi Kunta, BR Nagar and CR Nagar were left under sheets of water.

Traffic on NH 163 was suspended for several hours as the water from the Kakatshapur tank overflowed onto the highway near

Katakshapur village of Atmakur mandal. Sircilla town was under deluge. Following the instructions of Municipal Administration and Urban Development Minister KT Rama Rao, officials set up relief camps and shifted residents from low-lying areas.

KCR puts officials on high alert

STATE BUREAU
Hyderabad

With torrential rains lashing across the State, Chief Minister K Chandrababhu Naidu asked the State administration to remain on high alert and directed officials concerned to take all measures to safeguard people. He asked the entire State government machinery including the District Collectors to remain vigilant and take timely action to prevent loss of lives and property.

The Chief Minister, who is currently stationed in New Delhi to meet the Union Ministers on various pending issues pertaining to Telangana State, held a teleconference with the officials and reviewed the flood situation in the State in the wake of heavy rains. He spoke to Chief Secretary Somesh Kumar over the phone and issued instructions on the measures to be taken.

Gates of four irrigation projects lifted

STATE BUREAU

Hyderabad

With the water bodies getting huge inflows due to incessant rains for the last few days, the gates of at least four irrigation projects on Godavari basin were opened by the Irrigation Department officials to release water downstream.

For the last five days, the officials were opening the gates of Sriram Sagar project and releasing 3.50 lakh cusecs of water. On Tuesday, 33 out of 42 gates of the project were lifted to release water downstream. The project is currently receiving 3.50 lakh cusecs of inflows, said officials.

They said that more gates might be opened after one gate of Nizam Sagar project was opened on Tuesday. "We opened one gate of Nizam Sagar project and releasing 5,300 cusecs of water which will first reach Manjeera River and later Sriram Sagar project," said Kamareddy Executive Engineer (Irrigation) Solomon.

The Nizam Sagar project

Water being released from Nizamsagar project following heavy rains, in Nizamabad on Tuesday.

was receiving 2,400 cusecs of inflows from Singur Dam, Pocharam and Haladi Vagu. Eighteen gates each of Mid Manair reservoir and Lower

Manair Dam were opened to release 1.06 lakh and 2.62 lakh cusecs of water downstream. The Mid Manair and Lower Manair Dam were re-

ceiving 87,710 and 2.72 lakh cusecs of inflows. Officials of Priyadarshini Jurala Project (PJP) on Krishna basin lifted 11 gates and releasing

1.05 lakh cusecs of water into Srisailem project. PJP was receiving 93,500 cusecs of inflows from upstream areas, officials said.

Heavy rains put life out of gear in north TS dists

Sircilla gets flooded; man and son washed away in Jagtial

DC CORRESPONDENT
HYDERABAD, SEPT. 7

Heavy rains continued to wreak havoc in north Telangana districts on Tuesday, sweeping away people, vehicles, bridges and buildings. Undivided Warangal, Karimnagar, Nizamabad, Adilabad and Khammam districts received extremely heavy rainfall of above 20 cm.

A man and his son got washed away in floodwaters in Jagtial district due to the heavy downpour. While the body of the six-year-old boy was found, the whereabouts of his father is not yet known. This incident took place near Mallannapet of Gollapalli mandal of Karimnagar district.

Sircilla town was flooded due to heavy rains. The newly-inaugurated integrated collectorate complex was inundated. Several localities in the town were submerged in the flood. Cars and two wheelers were washed away in flood water.

KCR REVIEWS RAIN FURY, OFFICIALS PUT ON ALERT

DC CORRESPONDENT
HYDERABAD, SEPT. 7

Chief Minister K. Chandrashekar Rao, who is on a visit to Delhi, reviewed the situation in Telangana on Tuesday in view of heavy rains and floods that continue to batter the state for the past few days.

A release issued by the Chief Minister's Office (CMO) stated that Chandrashekar Rao spoke to Chief Secretary Somesh Kumar over phone to review the situation and issued directions.

The Chief Minister wanted district collectors and the state administration to remain alert and take appropriate measures.

KCR directs water resources department officials to be alert

CM asks MLAs, MPs to help people

From Page 1

With rivulets and lakes overflowing due to incessant rains, Rao directed that departments be alerted to minimise the inconvenience to people in flood-affected villages and mandals.

Since continuous rains are likely to affect electricity supply, roads, stormwater drains, Chandrashekar Rao

directed the officials of departments concerned put on alert. Municipal administration, panchayat raj, roads and buildings, and electricity departments were directed to alert the entire staff, from the officials to employees working at the lowest level.

The Chief Minister instructed that since projects, lakes and tanks were overflowing due to heavy

rains, steps must be taken to ensure that people living in low-lying areas did not suffer. He directed the officials of the water resources department to

remain alert.

He also wanted the NDRF and disaster management teams to be put on standby against the backdrop of the meteorological department issuing warnings.

Rao directed the Chief Secretary to undertake rescue and relief measures in affected areas by making alternate arrangements. He said in view of the alert by the meteorological department, disaster management teams must be kept ready to rescue those stranded in affected areas.

The Chief Minister urged the public representatives to help the affected people in coordination with the state administration. He appealed to the people in rain-affected areas not to come out of their houses in view of incessant rains.

Rain ravaged MP seeks ₹2,043 cr from Centre

EXPRESS NEWS SERVICE

@ Bhopal

THE Madhya Pradesh government has sought ₹2,043 crore from the Centre for carrying out relief and reconstruction works in nine districts ravaged by last month's torrential rains and the resultant floods. The state sent a detailed 140-page report to the Centre detailing the havoc wreaked by the floods in August first week.

As per the report, 9,334 people were rescued, 32,960 evacuated and 278 people airlifted by the state police, NDRF, SDRF, Indian Air Force, paramilitary forces and Indian Army columns.

The flash floods damaged 1,874.18 km roads and 1,583 bridges and culverts, 939 village panchayat buildings,

community halls and ponds. As many as 1,700 schools and hostels were damaged by the floods. Further, 2,446 urban infrastructure structures, 65 health department facilities and 464 water resources department structures, too, were damaged. The report sums up that 63 development blocks in nine districts were affected by the floods. Crops in 1,14,889 hectare were affected, causing a loss of ₹577.33 crore.

According to sources, while the state government is already carrying out relief and rehabilitation measures from its own resources, an assistance of ₹2,043 crore has been sought from the centre. The centre has also been requested to release ₹728 crore as the second installment for the SDRF.

Morning Standard- 08- September-2021

Nitish says Bihar's loss amounts to ₹3.8 crore

EXPRESS NEWS SERVICE

@ Patna

THE Bihar government has urged the Centre to release ₹3,763.85 crore to carry out relief works in the aftermath of the statewide floods that claimed the lives of 53 people and affected over 52 lakh people in 24 districts. A six-member Central team returned to Delhi on Tuesday after a two-day visit to the state to take stock of the ground situation.

Chief minister Nitish Kumar said the government was providing all assistances to the victims and is committed to providing adequate crop compensation after the final assessment.

According to an official statement, the Bihar govern-

ment had put forth a demand of ₹3763.85 crore, including ₹661.16 crore for agriculture, ₹204.14 crore for road construction and ₹1469.99 crore for the water resources departments.

As per an initial report, more than 500 roads were damaged in the floods, besides many link roads.

According to N Saravan Kumar, principal secretary of agriculture department, the flood damaged standing crops on 4,91,980 hectares, and the loss was pegged at ₹667.94 crore in 24 districts under 2,588 panchayats as on September 7.

According to officials, the Central team visited many flood-affected districts and reviewed the situation. Based on the assessment, the Centre would release funds.

**KCR
puts entire
state admin
on alert**

HANS NEWS SERVICE

HYDERABAD: With torrential rains lashing the State for the past two days, Chief Minister K Chandrashekar Rao has asked the administration to be in a state of high alert and directed the officials concerned to take all measures to safeguard the people. He asked the entire government machinery, including the District Collectors, to remain vigilant and take timely action to prevent any loss of lives and property. Following heavy downpour, several streams and rivulets are in spate. Orange alert has been issued for Adilabad district.

Other affected districts have been given Yellow alert. Siricilla was the worst hit among north Telangana districts, which were lashed by heavy rains on Tuesday.

Special teams equipped with boats have been deployed to rescue stranded people from the low-lying areas in the districts of Warangal, Karimnagar and Adilabad districts.

Godavari water mark reaches 33 feet at Bhadrachalam

HANS NEWS SERVICE
KOTHAGUDEM

DUE to heavy rains on Tuesday across the district, the water levels in river Godavari seems to have risen upto 33 feet mark in BBhadrachalam.

The concerned officers said that if the water level continues to rise and reaches the mark 43, a first alert will be issued to the public and it if reaches 53 mark then a final warning alert will be issued. It is noticed that the irrigation projects in Kothagudem dis-

trict is receiving huge inflows in the wake of continuous downpour.

It is learnt that 19 gates at the Taliperu project at Cherla were lifted to release about 36,700 cusecs of water downstream.

Similarly, the Pedavagu project in Aswaraopet mandal and Lothuvagu and Isukavagu in Aswapuram mandal were seen overflowing. In the same manner the Kinnerasani, Taliperu projects were filled with

Officials lift 19 gates in Taliperu project

floodwater. In the meantime, district people were relieved as no rains was registered in last 24 hours. The concerned officers visited colonies which were submerged with rain water and rescue operations were carried out. Similarly, the coal production resumed on Tuesday in the SCCL open cast mines of Kothagudem, Yellandu, Manugur and Sathupalli areas after it was interrupted due to heavy rain falls on Monday.

The Mint- 08- September-2021

India hasn't seen a strong monsoon so far, but there's no need to fret yet

Pallavi Pengonda
pallavi.p@livemint.com

The monsoon in India has been a damp squib so far. The rainfall deficit over 1 June to 6 September stood at 9% of the long-period average (from 1961 to 2010). August has been particularly disappointing with nearly 24% below normal rainfall.

As such, water reservoir levels aren't high enough. Data published on 2 September from the Central Water Commission shows live storage available in 130 reservoirs in India stands at almost 65% of their total live storage capacity. The live storage available is 80% of the live storage of the corresponding period of last year and 94% of storage of the average of last ten years.

India's farm sector depends heavily on the timely arrival and spread of rainfall during the monsoon season. By extension, the rural economy's income and, therefore, demand too is guided by rains. Experts are not too anxious yet on the rainfall, saying that there are some

comforting factors.

While rainfall distribution in 2021 has been patchy, economists say it has been largely supportive with most of the key foodgrain-producing states getting the normal amount. Crop sowing for the kharif season has been remarkable too.

Further, the India Meteorological Department (IMD) has said rainfall in September is most likely to be above normal (more than 110% of the long-period average).

WAIT AND WATCH

RESERVOIR levels at 65% of live storage capacity are lower than last year (80% of last year's level)

INDIA'S farm sector depends heavily on the timely arrival and spread of rainfall during monsoon

ANY adverse outcome with regard to the September rainfall could impact farm output

"The surplus rainfall in September is expected to lower the full season (June to September) deficit to 4.8% from 9% deficit currently," wrote Gaura Sen Gupta, an economist at IDFC First Bank, in a report on 2 September. Encouragingly, this month has begun well.

To be sure, in 2021, we are far better placed versus the drought scenarios seen in some of the years in the past dec-

ade.

"As per our irrigation coverage and agri GVA (gross value added) weighted rainfall indicator, India's rain deficit is only 3% below normal and is much better than the drought year (CY14 and 15) deficits of 17-18%," analysts from JM Financial Institutional Securities Ltd said in a 1 September report.

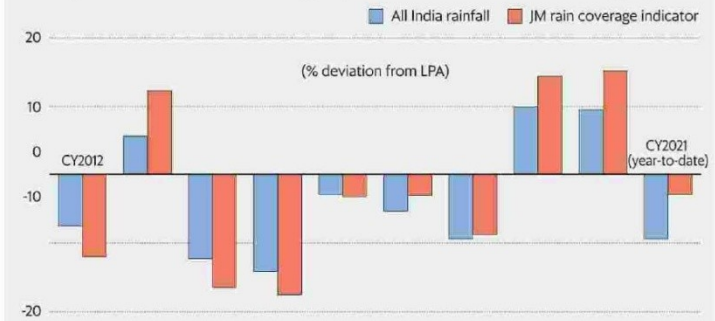

The report added, "The irregular pattern of rainfall in July-August '21, however, impacted agri-related investments including tractor sales but the overall growth trend is likely to revert back, as our checks suggest."

What about food inflation? JM Financial analysts point out, "Going forward, barring any extreme climatic shock, food inflation is expected to be contained in mid-single digits in 2HFY22, primarily due to the subdued outlook on cereal and vegetable inflation."

Nevertheless, how the September rainfall shapes up needs to be monitored closely. Any adverse outcome would impact farm output, Capital Economics said in its *India Economics Update*.

Not alarming yet

JM's rainfall coverage indicator (weighted by irrigation coverage and agri GVA by states) shows weakness from last year, but it is much better than drought years.

Note: GVA is gross value added; LPA is long period average.

Source: CMIE, JM Financial

SATISH KUMAR/MINT

"Production of monsoon crops (kharif) has steadily declined as a share of total agricultural output, from 60% in 1990 to under 50% now. Agriculture's share in GDP (gross domestic product) has also fallen, from 30% in 1990 to 15% now," said the firm.

The upshot is that the health of farms would be determined by not just the southwest monsoon, but also the north-east winds.

"While both spatial distribution of rainfall and sowing trend indicate limited impact on kharif sowing, there could be a risk to rabi crops if reservoir levels dip further. Good reservoir levels are essential for rabi crops, which are mostly reliant on irrigation facilities," pointed out the IDFC report.

As such, India's rural economy prospects may well hinge on how wet September is.

The Statesman- 08- September-2021

Heavy rains batter T'gana, KCR issues alert

STATESMAN NEWS SERVICE
HYDERABAD, 7 SEPTEMBER

With the India Meteorological Department predicting heavy to very heavy rainfall in the next two days, chief minister K Chandrasekhar Rao has asked the state administration to be on high alert as most of the rivers, streams and rivulets are already in spate due to heavy rains lashing the state for the past few days.

Many of the district towns have already been flooded, roads to villages cut off and people had to be shifted from their homes in low lying areas to safe shelters by district administration.

The CM is in Delhi currently but held a teleconference with officials during the day and reviewed the situation. He also spoke to chief secretary Somesh Kumar who is in touch with district collectors and other officials.

Telangana has been receiving copious amount of rainfall this monsoon and for

the past few days a low pressure area in Bay of Bengal have contributed to heavy rains. A red alert was issued for five districts including Peddapally, Bhadrachalam, Jayashankar Bhupalapally, Mulugu and Khammam for today. IMD has issued red alert for districts like Adilabad, Kumaram Bheem Asifabad, Nirmal and Nizamabad over next 48 hours. In fact irrigation projects in erstwhile Adilabad district have already received copious flows from upstream.

Districts like Rajanna Sircilla, Warangal and Khammam have been witnessing incessant rain and consequently severe flooding. Water entered several residential colonies and roads have been cut-off. Karimnagar city was also badly flooded with cars floating away and roads submerged.

State minister Gangula Kamalakar visited the low lying areas and promised to drain out the floodwater as soon as possible. The road between Vemulwada and

Karimnagar was cut-off due to heavy rains while an under construction bridge over Mula Vagu river along with its scaffolding collapsed due to torrential rain. The bridge was being built at the cost of Rs 28 crore. In Sircilla police personnel rescued 150 people after their houses were marooned.

The mini Tank Bund has overflowed. Water entered the newly constructed district collectorate as well as the bus terminus complex. Teams of Disaster Response Force in Hyderabad has been sent to Sircilla for rescue operations.

The CM directed the officials to assess the impact of the heavy rains on power supply, roads and other infrastructure and take decisions. The NDRF and disaster management teams have been kept on standby. Elected representatives too have been asked to be present in their respective constituencies and coordinate with official in providing relief measures.

मुलाकात

प्रदेश ने योजना में बदलाव की रखी मांग

नल से जल की रफ्तार होगी तेज, किया मंथन

बीकानेर की रेलवे फाटक समस्या के समाधान के लिए साथ आए कल्ला और अर्जुन

विवेक श्रीवास्तव

patrika.com

नई दिल्ली. राजस्थान में जल जीवन मिशन की रफ्तार तेज करने को लेकर मंगलवार को दिल्ली में केन्द्रीय जलशक्ति मंत्री गजेंद्र सिंह शेखावत और राजस्थान के जल मंत्री बीडी कल्ला के बीच अहम बैठक हुई। इस दौरान केन्द्रीय जलशक्ति मंत्रालय के साथ प्रदेश के आला अधिकारी भी बैठक में मौजूद रहे। बैठक में राजस्थान की ओर से योजना में कुछ बदलाव करने की मांग की गई है। जल जीवन मिशन में

बीकानेर में रेलवे बाईपास के लिए भाजपा कांग्रेस नेता आए साथ

बीकानेर शहर में रेलवे क्रॉसिंग की समस्या के समाधान के लिए केन्द्रीय राज्य मंत्री अर्जुनराम मेघवाल और राजस्थान के ऊर्जा मंत्री बीडी कल्ला दोनों ने एकसाथ रेल मंत्री अश्विनी वैष्णव से मुलाकात की। दोनों नेताओं ने रेल मंत्री से मांग की है कि बीकानेर में रेलवे बाईपास निकालकर इस समस्या से जनता

को राहत दें, क्योंकि वहां अन्य कोई वैकल्पिक रास्ता नहीं है अगर होता तो प्रदेश सरकार अबतक क्रियान्वयन कर देती। रेल मंत्री वैष्णव ने इस मामले में जल्द अधिकारियों की टीम भेजकर प्लान बनाने के आश्वासन दिया है। इस दौरान मंत्री कल्ला ने रेल मंत्री वैष्णव को जयपुर आने का निमंत्रण भी दिया।

राजस्थान देश में 27वें स्थान पर है। राजस्थान में 2019 से 2021 के बीच 9.07 फीसदी से ज्यादा घरों तक नल से जल पहुंचाया गया है। जबकि देश में यह औसत 25.37 फीसदी है। वहीं

स्कूलों में नल से जल पहुंचाने के मामले में राजस्थान अभी 26वें स्थान पर और आंगनबाड़ी तक नल से जल पहुंचाने में नीचे से नौवें स्थान पर है।

राजस्थान में जल जीवन मिशन में बड़ी समस्या यह आ रही है कि ग्रामीण क्षेत्र में कई पंचायतों की आयन के बराबर है और इस योजना में 10 फीसदी हिस्सा ग्राम पंचायत को देना है। इसको लेकर राजस्थान की ओर से कई अहम सुझाव केंद्र को दिए गए हैं।

मंत्री बीडी कल्ला ने कहा कि वे प्रयास कर रहे हैं कि इसमें उसके 10 फीसदी हिस्से को श्रमदान के रूप में बदल दिया जाए तो काफी सहूलियत होगी। प्रदेश में इस वित्तीय वर्ष में 30 लाख घरों में नल से जल पहुंचेगा, प्रदेश की ओर से कई सुझाव इस योजना में दिए गए हैं। उन्होंने कहा कि ग्राम पंचायतों की जो 10 फीसदी सहयोग वाली बात मुश्किल है, इसमें प्रयास है कि श्रमिक संबंधित कार्य कर गांव सहयोग कर सकते हैं।

सत्येंद्र जैन ने झील और घोघा प्राकृतिक एसटीपी का दौरा किया सनोथ झील का होगा कायाकल्प, यहां बनेगा उम्दा पिकनिक स्पॉट

■ विशेष संवाददाता, नई दिल्ली

दिल्ली सरकार ने बवाना में सनोथ झील के पुनर्निर्माण का काम पूरा करने के लिए दिसंबर-2021 का लक्ष्य रखा है। सिंचाई एवं बाढ़ नियंत्रण विभाग के मंत्री सत्येंद्र जैन ने मंगलवार को घोघा ड्रेन में बने प्राकृतिक सीवेज ट्रीटमेंट प्लांट (एसटीपी) और बवाना में बन रही सनोथ झील का मुआयना किया।

घोघा ड्रेन के प्राकृतिक एसटीपी के गंदे पानी को साफ करने की क्षमता को 10 लाख लीटर प्रतिदिन से बढ़ाकर 50 लाख लीटर प्रतिदिन करने के अधिकारियों को निर्देश दिए गए हैं। इसके अलावा केजरीवाल सरकार बवाना में सनोथ झील को भी पुनर्जीवित कर रही है। सनोथ झील को पिकनिक स्पॉट के रूप में तब्दील किया जाएगा।

छह एकड़ में फैली सनोथ झील बवाना के सनोथ गांव में स्थित है। बवाना कॉमन एफ्लुएंट ट्रीटमेंट प्लांट (सीईटीपी) से लगभग 3 एमजीडी पानी को रिसाइकल करके सनोथ झील को जीवंत करने के लिए इस्तेमाल में लाया जाएगा। इस झील में बच्चों के लिए खेल का मैदान, पिकनिक गार्डन, पैदल मार्ग, छठ पूजा घाट और जिम

बवाना की सनोथ झील को रिवाइव करने के लिए घोघा ड्रेन के प्राकृतिक एसटीपी का पानी किया जाएगा इस्तेमाल

जैसी सुविधाएं आम जनता के लिए होंगी। दिल्ली सरकार सनोथ झील के चारों ओर नीम, सेमल, चंपा, और बबूल जैसे कई तरह के पेड़ भी लगा रही है।

घोघा एसटीपी वेटलैंड प्रणाली पर आधारित है और बिना बिजली के प्रतिदिन

10 लाख लीटर गंदे पानी को साफ करता है। सत्येंद्र जैन ने कहा कि इस एसटीपी की गंदे पानी को साफ करने की क्षमता 10 लाख लीटर प्रतिदिन से बढ़ाकर 50 लाख लीटर प्रतिदिन की जानी चाहिए। रिसाइकल किए गए पानी का उपयोग नदीक के क्षेत्र

में एक झील बनाकर भूजल को रिचार्ज करने के लिए किया जाएगा। उन्होंने बवाना के सनोथ झील का भी दौरा किया। इस झील को दिल्ली सरकार आधुनिक तकनीकों के साथ पुनर्जीवित कर रही है। सनोथ झील को नए सिरे से इसी साल दिसंबर तक पूरा

भूजल भी रिचार्ज होगा

- कुल छह एकड़ में फैली सनोथ झील का हो रहा पुनर्निर्माण, दिसंबर तक होगा काम पूरा
- झील के पास खेल का मैदान, पिकनिक गार्डन, छठ पूजा घाट और जिम जैसी सुविधाएं होंगी
- घोघा एसटीपी की क्षमता बढ़ाकर प्रतिदिन 10 लाख लीटर से 50 लाख लीटर की जाएगी

निर्माणाधीन झील एरिया का नजारा

करने का लक्ष्य रखा गया है। सत्येंद्र जैन ने अधिकारियों को बवाना एस्केप ड्रेन की सफाई करने के निर्देश दिए, जिसमें 680 क्यूसेक की डिजाइन डिस्चार्ज क्षमता है।
