## Seal illegal industrial borewells in Gzb. NGT

New Delhi: The National Green Tribunal Tuesday directed the Central Ground Water Authority (CGWA) and the Uttar Pradesh government to seal all illegal industrial borewells in Ghaziabad district. A bench headed by NGT chairperson Justice Swatanter Kumar asked CGWA and the district magistrate of Ghaziabad to check illegal extraction of groundwater in compliance with an order passed in April 2015.

The green panel directed CGWA to submit a detailed compliance report on the issue within a week.

The tribunal had earlier said that people who depend on borewells for drinking water, need to obtain permission from the CGWA.

NGT had directed the sealing of borewells run by industries, private individuals, builders or water tanker operators in Ghaziabad and Hapur districts.

However, the green panel had later clarified that it did not intend to affect the lives of the residents who depend on groundwater for survival and asked all domestic consumers to apply for permission. NGT had also directed CGWA to submit

a detailed report on industries in both the districts after a plea alleged that incessant extraction of groundwater has resulted in depletion of the water table.

The tribunal was hearing a plea by Ghaziabad resident Sushil Raghav and NGO Society for Protection of Environment and Biodiversity seeking closure of all industrial units extracting groundwater illegally in notified areas of Ghaziabad and Hapur.

# Incessant rains trigger flash flood in Imphal

SOBHAPATI SAMOM

IMPHAL, Oct 22: Incessant rains since Saturday has caused flash floods in Manipur particularly in the capital city here on Sunday.

Most of the low-lying areas and around the State capital including Shree Shree Gobindajee temple at Royal Palace and Hanuman temple at Mahabali, both in Imphal East district have gone under water.

Besides the shopping areas of Imphal including Paona Bazar, Thangal Bazar, Dharasala, Pologround, etc., government offices including district session court complex at Uripok were also inundated due to the intense rainfall. About 89.3 mm of rainfall (against yesterday's 55mm) was recorded till 3 pm on Sunday by Indian Council of Agricultural Research, Imphal Centre here.

Several localities in the State capital—Thangmeiband, Sagolband and Uripok, etc., are facing flash flood after Nambul

river overflowed in some areas in Imphal. According to reports, some residents of Uripok in the heart of Imphal town

were marooned after flood waters entered their homes.

The major rivers—Imphal, Nambul, Iril and Kongba—

which passes through thickly populated greater Imphal areas are all flowing above warning level, according to sources. Reports from Kangpokpi, from where the Imphal river originates, said rainfall was high in the district.

Residents of Tekhaopat located near the historic Singjamai Bridge in Manipur's Singjamai constituency are guarding the Imphal riverbank in their area.

Meanwhile, Chief Minister N Biren Singh's proposed visit to Tamenglong district headquarters on October 23 to attend a State Cabinet meeting and some other programmes has been postponed due to the inclement weather.

The usual Imphal evenings popularly known as Imphal Night Plaza held on Saturday and Sunday nights have also remained suspended "due to bad weather."
