## परिपत्र

**Subject: Virtual Workshop and Training on the Basics of Water Accounting**  
on **22nd September, 2022** under the India-EU Water Partnership  
(IEWP) Action/Phase 2" - reg.

The IHE, Delft Institute of Water Education, the Netherlands is jointly carrying out the Water Accounting Study for Tapi Basin with the Indian partners under the India-EU Water Partnership (IEWP) Action/Phase 2 for the IEWP Action work area related to 'River Basin Management'.

In this context, a virtual "**Workshop and Training on the Basics of Water Accounting**" is planned on **22nd September, 2022 (2:30 pm to 5:30 pm)** with the objective to provide an overview of the introductory aspects of water accounting and to present the activities to be carried out for the Tapi River Basin by Basin Planning Management Organisation, CWC, New Delhi in association with IHE, Delft Institute of Water Education.

A short note on the Workshop background and agenda is attached.

The Microsoft teams link for the workshop is as under:

## Agenda

### **Workshop and Training on the Basics of Water Accounting under the India-EU Water Partnership (IEWP) Action/Phase 2**

Date: 22 September 2022

Mode: Virtual [Click here to join the meeting](#)

The IHE, Delft Institute of Water Education, the Netherlands is technically supporting the India-EU Water Partnership Action Phase 2 under a grant agreement. For the IEWP Action work area related to 'River Basin Management', IHE Delft will jointly carry out the Water Accounting Study for Tapi Basin with the Indian partners. The outcomes of the Water Accounting Study will support the detailing of the Tapi River Basin Management Plan by providing better insights into water demand and water use in the Tapi Basin.

**Water Accounting** can be defined as the systematic acquisition, analysis and communication of data and information relating to fluxes and stocks of water in natural, disturbed or heavily engineered environments, within a geographical domain such as an irrigation system, river basin, or country (FAO, 2012; Batchelor et al., 2016). The objective of Water Accounting is to support equitable and transparent water management for all water users by improving the understanding of water resource availability and promoting responsible use.

In this context, a virtual workshop is planned for members of the Indian water authorities/institutions with the objective to provide a short training on introductory aspects of water accounting and to present the activities to be carried out in the Tapi River Basin.

#### Draft Agenda

Time	Item	Speakers
14:30 to 14:35	<b>Welcome Note</b>	Mr. Prashant Gupta, Director, BPMO, CWC Ms. Laura Sustersic, Project Manager, IEWP Action, GIZ
