## FLOOD SITUATION SUMMARY

### PART - I: LEVEL FORECAST

| S.No.                                              | Flood Situations                                                                                                                      | Numbers of Forecasting Sites |
|----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|------------------------------|
| <b>A</b>                                           | Extreme Flood Situation:<br>(Site (s) where the previous Highest Flood Level (HFL) is exceeded or equalled)                           | 0                            |
| <b>B</b>                                           | Severe Flood Situation:<br>(Site (s) where water level is touching or exceeding the Danger Level but below Highest Flood Level (HFL)) | 0                            |
| <b>C</b>                                           | Above Normal Flood Situation:<br>(Site (s) where water level is touching or exceeding the Warning Level but below Danger Level)       | 0                            |
| Total number of sites above Warning Level ( A+B+C) |                                                                                                                                       | 0                            |

### PART - II: INFLOW FORECAST

|                                                                                                                                                              |   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| Number of sites for which inflow forecasts issued:<br>(Where Inflows are equal or exceed the specified Threshold Limit for a particular reservoir / barrage) | 0 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|---|

## A: Extreme Flood Situations :

Sites where the previous Highest Flood Level (HFL) is equalled or exceeded

| River<br>-----<br>Station | District<br>-----<br>State | Warning<br>Level<br>(m) | Danger<br>Level<br>(m) | Highest<br>flood<br>Level (m)<br>-----<br>Date | Actual level | Forecasted Level |
|---------------------------|----------------------------|-------------------------|------------------------|------------------------------------------------|--------------|------------------|
|                           |                            |                         |                        |                                                | Trend        | Trend            |
|                           |                            |                         |                        |                                                | Time         | Date and Time    |

**No station is flowing in Extreme Flood Situation**

## B: Severe Flood Situations :

(Site (s) where water level is equalled or exceeded Danger Level but below Highest Flood

| River   | District | Warning<br>Level<br>(m) | Danger<br>Level<br>(m) | Highest<br>flood<br>Level (m) | Actual level | Forecasted Level |
|---------|----------|-------------------------|------------------------|-------------------------------|--------------|------------------|
|         |          |                         |                        |                               | Trend        | Trend            |
| Station | State    |                         |                        |                               |              | Date             |

**No station is flowing in Severe Flood Situation**

**C: Above Normal Flood Situations :**

Site (s) where water level is equalled or exceeded Warning Level but Less than Danger

| River<br>-----<br>Station | District<br>-----<br>State | Warning<br>Level<br>(m) | Danger<br>Level<br>(m) | Highest<br>flood<br>Level (m)<br>-----<br>Date | Actual level | Forecasted Level |
|---------------------------|----------------------------|-------------------------|------------------------|------------------------------------------------|--------------|------------------|
|                           |                            |                         |                        |                                                | Trend        | Trend            |
|                           |                            |                         |                        |                                                | Time         | Date and Time    |

**No station is flowing in Above Normal Flood Situation**
