Forecast and Warning for any day is valid from 0830 hours IST of day till 0830 hours IST of next day

**CWC Inference:-** QPF as received from IMD is given above. Very Light rainfall (0.1-10mm) is predicted for almost all the sub catchments for the next 5 days.

***Waterlevels will remain steady in sub catchements of Godavari Basin. As Laxmi Barrage is releasing (26,700 cusecs) water due to inflows into the barrage, the same will reach downstream and water levels of downstream sites will may rise slightly, hence it is advised that the sites from Kalesweram to Atreyapuram be watchful.***
