BRIEF NOTE ON LIVE STORAGE STATUS OF 155 RESERVOIRS IN THE COUNTRY (WITH REFERENCE TO RESERVOIR STORAGE BULLETIN OF 06.02.2025)

1. ALL INDIA STATUS

Central Water Commission is monitoring live storage status of 155 reservoirs of the country and is issuing weekly bulletin on every Thursday. Out of these reservoirs, 20 reservoirs are of hydro-electric projects having total live storage capacity of **35.299 BCM**. The total live storage capacity of 155 reservoirs is **180.852 BCM** which is about **70.15%** of the live storage capacity of 257.812 BCM which is estimated to have been created in the country. As per reservoir storage bulletin dated **06.02.2025**, live storage available in these reservoirs is **110.204 BCM**, which is **61%** of total live storage capacity of these reservoirs. However, last year the live storage available in these reservoirs for the corresponding period was **89.306 BCM** and Normal* storage was **92.563 BCM**. Thus, the live storage available in 155 reservoirs as per **06.02.2025** Bulletin is **123%** of the live storage of corresponding period of last year and **119%** of Normal storage.

As per Table-01, the overall storage position is **better than the** corresponding period of last year in the country as a whole and is also **better than the** Normal storage during the corresponding period.

2. REGION WISE STORAGE STATUS:

a) NORTHERN REGION

The northern region includes States of Himachal Pradesh, Punjab and Rajasthan. There are 11 reservoirs under CWC monitoring having total live storage capacity of **19.836 BCM**. As per Reservoir Storage Bulletin dated **06.02.2025**, the total live storage available in these reservoirs is **6.847 BCM** which is **35%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **45%** and Normal storage during corresponding period was **47%** of live storage capacity of these reservoirs. Thus, storage during current year is less than the corresponding period of last year and is also less than Normal storage during the corresponding period.

b) EASTERN REGION

The Eastern region includes States of Assam, Jharkhand, Odisha, West Bengal, Tripura, Nagaland and Bihar. There are 25 reservoirs under CWC monitoring having total live storage capacity of **20.798 BCM**. As per Reservoir Storage Bulletin dated **06.02.2025**, the total live storage available in these reservoirs is **12.477 BCM** which is **59.99%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **59%** and Normal storage during corresponding period was **60.13%** of live storage capacity of these reservoirs. Thus, storage during current year is better than the corresponding period of last year but is less than Normal storage during the corresponding period.

c) WESTERN REGION

The Western region includes States of Gujarat, Maharashtra and Goa. There are **50** reservoirs under CWC monitoring having total live storage capacity of **37.357 BCM**. As per Reservoir Storage Bulletin dated **06.02.2025**, the total live storage available in these reservoirs is **27.420 BCM** which is **73%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **61%** and Normal storage during corresponding period was **54%** of live storage capacity of these reservoirs. Thus, storage during current year is better than the storage of last year and is also better than Normal storage during the corresponding period.

d) CENTRAL REGION

The Central region includes States of Uttar Pradesh, Uttarakhand, Madhya Pradesh and Chhattisgarh. There are 26 reservoirs under CWC monitoring having total live storage capacity of **48.227 BCM**. As per Reservoir Storage Bulletin dated **06.02.2025**, the total live storage available in these reservoirs is **30.799 BCM** which is **64%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **57%** and Normal storage during corresponding period was **54%** of live storage capacity of these reservoirs. Thus, storage during current year is better than the storage of last year and is also better than Normal storage during the corresponding period.

e) SOUTHERN REGION

The Southern region includes States of Andhra Pradesh, Telangana, AP&TG (2 combined projects in both states), Karnataka, Kerala and Tamil Nadu. There are 43 reservoirs under CWC monitoring having total live storage capacity of **54.634 BCM**. As per Reservoir Storage Bulletin dated **06.02.2025**, the total live storage available in these reservoirs is **32.661 BCM** which is **60%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **33%** and Normal storage during corresponding period was **45%** of live storage capacity of these reservoirs. Thus, storage during current year is better than the storage of corresponding period of last year and is also better than Normal storage during the corresponding period.

The region wise and reservoir wise details are given in the following pages of the Bulletin.

BROAD ANALYSIS OF OTHER TABLES IN THE BULLETIN

- Normal storage means average storage of last ten years, Close to normal storage means where shortfall is upto 20% of normal, deficient storage is where shortfall is more than 20% of the normal and upto 60% of the normal, highly deficient means where shortfall is more than 60% of normal.
- In the table on page 11, better than normal storage is available in Ganga, , Subarnarekha, Narmada ,Godavari, Barak & Others, Sabarmati, Tapi, West Flowing Rivers from Tadri to Kanyakumari, Krishna,Cauvery,West Flowing Rivers from Tapi to Tadri, East Flowing Rivers between Mahanadi & Pennar, Brahmaputra, West Flowing Rivers of Kutch & Saurashtra including Luni, East Flowing rivers between Pennar & Kanyakumari, Pennar and Mahi. Close to Normal in Mahanadi and Deficient in Indus and Brahmani & Baitarni and Highly Deficient in NIL.
- Table on page 12-14 of the bulletin. The numbers of reservoirs having storage more than last year are **104** and reservoirs having storage more than Normal are **118**. The numbers of reservoirs having storage less than or equal to 20% with respect to last year is **03** and having storage less than or equal to 20% with reference to Normal is **01**. The number of reservoirs having storage less than or equal to 50% with respect to last year are **06** and having storage less than or equal to 50% with reference to Normal are **06**.

States having better storage (in %) than last year for corresponding period: Rajasthan, Assam, West Bengal, Tripura, Nagaland, Maharashtra, Uttar Pradesh, Bihar, Chhattisgarh, Jharkhand, Uttarakhand, Gujarat, Madhya Pradesh, AP&TG (Two combined projects in both states), Andhra Pradesh, Karnataka, Kerala, Telangana and Tamil Nadu.

States having equal storage (in %) to last year for corresponding period:NIL.

States having lesser storage (in %) than last year for corresponding period: Himachal Pradesh, Punjab, Odisha and Goa.

3. LIVE STORAGE AVAILABLE IN THE COUNTRY:

Based on the data available for 155 reservoirs as per Reservoir Storage bulletin dated **06.02.2025**, the total live storage of the country has been estimated to be **157.100 BCM** against 257.812 BCM which is estimated to have been created in the country.

Disclaimer: The Data contained in this Bulletin is as received from the State Government/Project Authorities.

STORAGE STATUS OF 155 IMPORTANT RESERVOIRS IN THE COUNTRY
AS ON : 06.02.2025

1 Central Water Commission is monitoring storage status of 155 important reservoirs spread all over the country, in which 20 are of hydro-electric projects having total live storage capacity of 35.299 BCM. These reservoirs are identified thus(*) in the enclosed weekly report.

2 The total live storage in 155 important reservoirs in different parts of the country, monitored by CWC as on

06.02.2025 is **110.204** BCM (**61** percent of the live storage capacity at FRL).The current year's storage is nearly **123** percent of last year's storage and **119** percent of Normal Storage.

3 Region wise storage status:-

REGION (States), (Monitoring No. of Reservoirs)	100%	Filling position of 155 reservoirs w.r.t. FRL								States	No.of Reservoirs monitored	% of Departure from Normal storage
		91 %- 99 %	81%- 90%	71 %- 80 %	61 %- 70 %	51 %- 60 %	41 %- 50 %	40% & below
