24 November 2021

H.E. Shri Gajendra Singh Shekhawat  
Minister  
Ministry of Jal Shakti  
Republic of India

Your Excellency,

It is my pleasure to inform you that the Ministry of Environment of the Republic of Korea (KME) is seeking recommendations for prospective students of Master's Program for Future Global Leaders in Environmental Policy (MGLEP). This program offers an opportunity for government officials from our partner countries to participate in a two-year graduate studies program in Korea sponsored by KME.

MGLEP has begun since 2015 with the aim to strengthen international environmental cooperation by providing future leaders of our partner countries with an opportunity to study and research about sustainable development and environmental policies in prestigious academic institutions in Korea. The program which is fully sponsored by KME and managed by International Environmental Cooperation Center (IECC), has given capacity building and learning opportunities to a total of 179 students from 32 countries so far. I am glad to let you know that the admission process for the new academic year starting in spring 2022 has begun.

In this regard, I hereby cordially invite the Ministry of Jal Shakti of the Republic of India to recommend two to three eligible officials of your Ministry who wish to enroll in the program. Researchers in affiliated agencies or institutions under your Ministry are also eligible for application. The applicants are required to be fluent in both spoken and written English and have minimum three years of work or research experience. Full scholarship will be awarded to successful applicants who meet the admission requirements described in the enclosed program description. In addition to full tuition coverage, students will be provided with living allowances, medical insurances and other various expenses including travel costs.

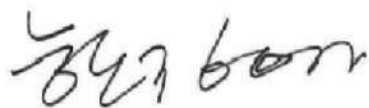

Students enrolling from 2022 will study at the University of Seoul. Please refer to the enclosed program information of the university to recommend the best-suited applicants for the university's academic program and requirements.

The deadline for the application is **January 7, 2022**.

I firmly believe that MGLEP will not only provide valuable academic and cultural experience for the participants but also contribute to enhancing cooperation between the two countries in the future.

I would be pleased by your interest and cooperation for the program.

Yours sincerely,

H.E. Ms. Han Jeoung-ae  
Minister, Ministry of Environment  
Republic of Korea

## **Master's Program for Future Global Leaders in Environmental Policy (MGLEP)**

The Master's Program for Future Global Leaders in Environmental Policy (MGLEP) funded by the Ministry of Environment of Korea (KME) is designed to support Graduate Studies Program for government officials working in environment or related fields in Korea's partnering countries

The main goal of MGLEP is to support the training of key personnel who have the capacity to lead the sustainable economic and social development of our partnering countries through the transfer of Korea's know-how and experiences in environmental improvement.

The KME launched the program for the first time in 2015, reflecting the demand of its partnering countries for the long-term capacity-building programs discussed during high-level meetings and through the international cooperation network of the Ministry.

This program is expected to contribute to the capacity-building in environmental policy of partnering countries by allowing the participants to experience Korea's development process, acquire specialized knowledge in the field of environment through intensive training, and strengthen the ability for policy development and analysis.

With the ownership of the program, the KME will put its best efforts to support participants of MGLEP not only in expanding their knowledge of environmental policy and technology, but also establishing valuable networks and experiencing Korean culture, society and history through this invitation program for officials of our partnering countries.

## **International Environmental Cooperation Center (IECC) of Korea Environmental Industry & Technology Institute (KEITI)**

In 2009, the Korea Environmental Industry & Technology Institute (hereinafter referred to as "KEITI") was founded as a quasi-government organization under the Ministry of Environment of the Republic of Korea. As taking the major lead in developing environmental technologies, fostering environmental industry, and spreading eco-friendly lifestyles, KEITI is contributing to offer improved environmental welfare services for citizens and to achieve sustainable development both domestically and internationally.

The International Environmental Cooperation Center (hereinafter referred to as "IECC") has established in 2020 in order to lead the international environmental cooperation of the Korean government under the guidance of the Ministry of Environment based on extensive research and cooperation activities in an effort to make transition towards sustainable and green future.

Under the Vision, "Global green partnership platform for sustainable future", IECC is managing the Master's program for Future Global Leaders in Environmental Policy for foreign government officials, through which we share environmental knowledge and strengthening partnership.

**The Leading Education & Research Institution in  
Urban Sciences in Korea**

**Suh, Soon Tak**

**President, University of Seoul**

The history of the University of Seoul is the history of Korea in view of social development. Since its establishment in 1918, the University of Seoul has changed its specialized area from agriculture, to industry in the 1970's, and again to urban studies in the 1980's. The university of Seoul has become more prestigious in recent years as it develops strategically Urban Studies. As the only university sponsored by the Seoul Metropolitan Government, the University of Seoul is leading the education and research in Urban Studies in Korea.

Urbanization becomes a crucial phenomenon now, and the developing world is where this drastic urbanization is occurring. For the first time, more than half of world population live in cities. Over 90 percent of urban growth is taking place in the developing world. Urbanization in the developing world was once considered unmanageable and hence restricted. However, the question is not how to constrain urbanization, but how to prepare for it, maximizing the benefits of urbanization while minimizing the negative externalities of congestion, crime, and slums. Urban planners and administrators need to understand city and urbanization for better quality of life and socioeconomic prosperity.

Korea Environmental Industry & Technology Institute and University of Seoul (KEITI-UOS) jointly offer a master degree program for Future Global Leaders in Environmental Policy, especially designed for public officers of cities from developing countries. It aims to enable public officers to enhance their ability to improve quality of their citizens' lives by providing world-class theoretical knowledge and Seoul's practical development experiences.

The University of Seoul warmly welcomes to all the KEITI-UOS Master of Future Global Leaders in Environmental Policy participants and encourages all of you to keep your passion.

Thank you.

## Hub of 'International Networking' for Global Experts

**Park, Hyeon**  
Dean of ISUS, University of Seoul

In the midst of rapid urbanization during the process of compressed economic growth our country has accumulated unique experiences and know-how's in urban development and administration field. Such urban growth of the Republic of Korea has helped gain the attention of many countries abroad hoping for an opportunity of sharing the experience. Meanwhile, although our construction companies have won high reputation in infrastructure development such as road, harbor and plant construction, the turning point for a qualitative take off has become necessary as the competition with other development-pursuing countries intensified.

Like so, having the domestic and foreign demand in consideration, providing a comprehensive solution relative to the urban development and management with our experience and know-how's and opening the way to the comprehensive package of urban development towards the whole world have become a national agenda that we must pursue. During the process, we anticipate further overseas expansion of the Korean construction companies by the development of new modules.

University of Seoul, which pioneered through the research and education of urban related fields, has met such demands of the current era by establishing the International School of Urban Sciences with the goal of fostering global city professionals in 2012. On one hand, we educate domestic city professionals so that they will be able to advance towards overseas urban development and management fields, and on the other hand, we provide foreign public officials the opportunity to learn the experience of Korea first-handedly by managing the International Urban Development Program (IUDP). In addition, our graduate school will be the platform on which domestic professionals and foreign public officials cultivate global perspectives and insights by interacting with each other and create an international network.

The ISUS is committed to establishing itself as the center of research and international cooperation in the area of urban sciences.

We expect your continued interest and support. Thank you.

## **University of Seoul, The Birthplace of Korea's Urban Study**

University of Seoul was founded in 1918 and has provided higher education opportunities for the intelligent, motivated, and creative scholars. As a public institution, University of Seoul is committed to addressing the social, regional, technological, and creative issues of the urbanized world. It has thus dedicated itself to cultivating leaders who will shape the urban future of Korea and the world. Its faculty, students, and administrative body are also distinguished by a commitment to civic values and a dynamic urban civilization.

University of Seoul insists on quality and breadth. It is committed to both theory and practice, and endorses openness towards students and Korea's noticeable institutions. With more than 10,000 students enrolled, University of Seoul consists of seven undergraduate colleges and almost 90 fields of study in the Graduate School. With diverse and specific programs that integrate research and policy, practice and education, University of Seoul seeks a balance between academic and professional concerns, between visionary goals and practical research. Along with basic research, University of Seoul functions as a think-tank in formulating and supporting the major policy goals of the Seoul Metropolitan Government.

In this sense, the International School of Urban Sciences has maintained a dominant position in a field of urban sciences. These range from environmental and civic engineering, architecture, urban planning and landscape design to public law and administration, taxation science, economics, urban sociology and management. With Korea's largest and finest group of human and informational resources focused on the future of the world's city, it boasts a unique array of research institutions working on the solutions to its problems and creative visions for its future.

(\*) The medical check-up will be implemented after arrival in Korea to assure participants' health condition. If any case including AIDS or pregnancy which may hamper their graduate study in Korea is found by the medical check-up, the participant will be required to return home. The acceptance to the MGLEP and the acquirement of the status of scholarship recipient will be confirmed after medical check-up.

**b. Regular Coursework Semesters (3 semesters)**

Students are required to complete 51 credit hour coursework during regular academic semesters. During the Winter/Summer Session, an internship or job shadow opportunity would be offered to enhance the students' practical understanding of urban and regional development. After completing the course work, students are required to pass a thesis submission qualification exam.

**c. Thesis Writing Session (4<sup>th</sup> semester)**

After completing the required coursework, students will be required to write a Master thesis under the guidance of his/her advisor. Interim thesis draft will be tested on two thesis presentation sessions, where participants will present his/her thesis draft to be evaluated by thesis committee members.

## 2. CURRICULUM

### 3. EXTRACURRICULAR ACTIVITIES

#### a. Field Studies

##### 1) Site Visits

- The program will arrange four site visits which can help students gain more practical knowledge of Korea's environment policy and its efforts for sustainable development.
- The site visits will also include cultural activities which can help students better understand Korean culture and society.

##### 2) Field trips

The program offers opportunities to learn exemplary practices such as Korea's efforts to improve the environment and Korea's swift response to climate change as well as its' strenuous efforts to reduce greenhouse gases.

#### b. Internship/Job Shadow Opportunities

The program will provide internship opportunities for the students to gain more practical knowledge of Korea's environment policy and its efforts for the sustainable development at sponsoring or cooperating agencies. The students will be able to do an internship/job shadow during the winter /summer break session or thesis writing session. Students who take advantage of this internship opportunity may take advice and collect data for thesis writing from institutions where they do their internship.

#### c. Events

- Welcoming Ceremony and Orientation
- Home Visiting
- Sports Day
- Seminars, Forums, and Conferences
- Cultural Events

## Part V ACADEMIC INSTITUTION

### 1. GENERAL OVERVIEW OF UNIVERSITY OF SEOUL (UOS)

University of Seoul is a public university funded and supported by the Seoul Metropolitan Government. Seoul is the economic, political, and cultural center of Korea. It is also the 600-year capital of Korea, a historical city with social, cultural, and physical layers spread out along a vast and complex landscape. The character of the university, academic programs, and research institutions is shaped by Seoul's metropolitan dynamic. Its faculty, students, and administrative body are distinguished by a commitment to civic values and a dynamic urban civilization. Along with basic research, it functions as a think-tank in formulating and supporting the major policy goals of the Seoul Metropolitan Government. With diverse and specific programs that integrate research and policy, practice and education, the University of Seoul seeks a balance between academic and professional concerns, between visionary goals and practical research.

University of Seoul has set a clear goal of becoming an international center for the urban sciences. These range from environmental and civic engineering, architecture, urban planning and landscape design to public law and administration, taxation science, economics, urban sociology and management. More recently, the university has diversified this base to include the arts and humanities. In the area of science and engineering, the university has concentrated on the development of information and media technology. With Korea's largest and finest group of human and informational resources focused on the future of the world's city, it boasts a unique array of research institutions working on the solutions to its problems and creative visions for its future.

For more information, please visit <http://english.uos.ac.kr>.

## 2. INTERNATIONAL SCHOOL OF URBAN SCIENCES (ISUS)

The International School of Urban Sciences (ISUS) of University of Seoul (UOS) was launched in Spring 2013 in an effort to contribute to the development of sustainable urban communities in the world through an interdisciplinary program of teaching, research, and outreach. ISUS offers two graduate programs in global construction management and sustainable urban & regional development. The two-year graduate degree programs seek to provide an interdisciplinary, engaged learning environment in which students from various fields acquire the knowledge and professional skills necessary for becoming leading practitioners in the field of environment policy and sustainable development.

In addition to the regular graduate programs, ISUS created the International Urban Development Program (IUDP) in cooperation with partner agencies and institutions in order to share Korea's achievement in urban and regional development with scholars and practitioners from the world. Currently, IUDP offers the Seoul Case Study Program in partnership with several world-renowned public administration and public policy schools in the U.S., and the U.K. The one-week field study program provides graduate students from partner universities with a unique opportunity to learn the best practices of Seoul in various urban administration and development areas. Each year, IUDP also invites about 20 government officials from Seoul's global partner cities for a master's degree program, Master of Urban Administration and Planning (MUAP). The MUAP program, sponsored by Seoul Metropolitan Government is designed for municipal government officials from Seoul's global partner cities to acquire academic and professional knowledge and skills that can help them work for the special challenges their home communities have been facing with. Since 2015, ISUS has developed Master's program for Future Global Leaders in Environmental Policy (MGLEP), sponsored graduate degree program, in partnership with the Ministry of Environment of Korea (KME) for government officials from KME's partner countries. ISUS recently launched another sponsored graduate degree program in global infrastructure development, Master of Infrastructure Planning & Development (MIPD) in partnership with Ministry of Land, Infrastructure and Transport (MOLIT) for government officials from partner countries. These sponsored graduate programs are expected to contribute to the sustainable urban development in developing countries by providing the academic and professional skills necessary for their home countries.

### 3. ACCOMMODATION

Students will reside in a single room either at International House or Guest House on campus. The university's on-campus housing facilities, the Dormitory and International House has 190 rooms for male and 103 rooms for female students. Living on campus allows students to meet new friends and experience all that UOS campus offers through various living, dining, and campus life options.

<Picture: Rooms in the International House>

All rooms are fully equipped with central heating, central air conditioning and free LAN internet access. Each occupant will use a single room but share a living room, shower room, toilet and laundry. The rooms are centrally air-conditioned but students can set the room temperature using the control switch. The electric voltage in Korea is 220V (60hz), and the standards wall socket has two rounded holes. Due to fire hazard reasons, the use of cooker, iron or coffeepot is strictly prohibited in the room. The International House has a community kitchen for students to cook their own food occasionally. Many international students use this community kitchen to cook their own ethnic food and share it with other international or Korean students.

&lt;Community Kitchen &amp; Cafeteria&gt;

The Dormitory and International House provides coin-operated laundry rooms and a gym for its residents' use. These are located on the basement floor and open 24 hours. Seminar rooms, student lounges, and an internet café are also available for the residents.

## 4. OTHER INFORMATION

### 1) University Library

The University of Seoul Libraries are dedicated to serve for the academic success of all UOS community members. The UOS Libraries are composed of the main library and the following two branch libraries

- Law Library
- Economics and Business Administration Library

#### Main Library

The Main Library is composed of reading rooms with 2,200 seats and houses almost 800,000 volumes of books, monographs and references. It also holds 1,466 different periodicals, 58,034 units of non-book materials and several online databases.

The Main Library opened the Digitalized Information Service Room in 1998, which allows users to access more non-book materials.

The expanded and computerized library system enables users to confirm, check, renew, reserve, check-out, purchase and send orders via the internet. In 1999, the Main Library reached an agreement with the National Assembly Library for the mutual exchange of academic information through the internet, thus facilitating access to vast amounts of information.

The Main Library also provides printing services for the full-text database of social science theses and dissertations. Most recently, the Main Library has created a new program which allows users better access to information on research resources, and has established the Integrated Retrieval System to facilitate easier access to multimedia data and e-books.

### **Law Library**

The law library was established as a branch of the UOS Libraries with a legal resource room, a postgraduate reading room, and information retrieval equipment in Floors 4~6 on October 2008. The library has 80,705 legal books (as of January 13, 2011) in 1,600 m<sup>2</sup> to support research activity, lecture, legal information investigation for the Graduate School of Law and legal area. On the 4<sup>th</sup> floor, it has group study rooms, an IT room, a laptop section and a lounge. On the 5<sup>th</sup> floor, it has a postgraduate reading room, an IT room and a preservation library. There is a legal study resource room including periodicals, reference books and articles on the 6<sup>th</sup> floor.

### **Economics and Business Administration Library**

The economics and business administration library was established as a branch with reading rooms, group study rooms and seminar rooms in Floor 3 on March 2011. The library has over 20,000 books, 70 periodicals and 15 database in 1,036.8 m<sup>2</sup> to support the research and learning activity of professors and students in management and economics. It has a 24 seat resource reading room, free reading rooms (148 seats), 5 study rooms (30 seats), a seminar room (8 seats), and information retrieval equipment (11 seats) to provide best service.

## **2) Computing Facilities**

Many computer labs are available in UOS. In Korea, IBM is more widely used than MAC. The most accessible places to the Internet are the Student Lounge on the first floor in the 21 Century Building and Main Library. If you bring a laptop, you can access the Internet in your dorm room with the LAN cable which you need to prepare by yourself.

- **Printer, Photocopy Machine and Scanner** IUDP office is equipped with 2 computers, 2 printers, 1 photocopy machine and 1 scanner for students' use.

### 3) Bank and Money Exchange

Woori Bank is located on the first floor of the University Center Building. The business hours are from 9:00 to 16:00, Monday through Friday and it closes on weekends and holidays. During the preliminary session, students will fill out the application form to open a bank account.

Foreign currency can be exchanged into Korean currency (won) in banks at the airport, foreign exchange banks, and other authorized money exchange places including the on-campus Woori Bank. Please note that only US Dollars, Euros, Japanese Yens and Chinese Yuans can be exchanged on-campus bank. Global ATM can be found easily in Seoul. There is one right next to Woori Bank on campus.

### 4) Student Cafeteria and Snack Bars

There are several cafeterias and snack bars on campus. They all serve different menus to meet the need of students and faculty.

**Part VI****SUPPORT SERVICE****1. TRAVEL TO KOREA**

UOS arranges and pays for the participant to travel to and from Korea. The participant is to travel by the most direct route between Incheon International airport and a main international airport in participant's home country. UOS will cover economy class, round-trip airfare.

If a participant wants to change the flight itineraries, the additional fare should be borne by him/her. The participant is responsible for the issuance of a visa necessary for this Scholarship Program.

If a participant invites family members for a temporary visit during the program, he or she must take the full responsibilities for all the relevant costs and other necessary administrative procedures (please refer to the "4. Accompanying or Inviting Family" Section of Part 7. Regulations).

**2. EXPENSES FOR STUDY AND LIVING**

The following expenses will be covered by KEITI-UOS during the participant's stay in Korea.

- Tuition & Dormitory fees
- Living allowance (including meals): KRW 999,000 per month
- Economy class, round-trip airfare between Seoul and the Participant's home country
- Miscellaneous travel expenses: KRW 200,000 upon arrival
- Others: A medical checkup after arrival, field trip expenses, etc.

### **3. MEDICAL SUPPORT AND INSURANCE**

#### **1) Health Check-up**

Health Check-ups will be provided two times throughout the duration of the program.

**1st Check-Up:** Upon arrival in Korea, in order to check the medical conditions before joining the Program.

If the medical check-up result shows that it is inadequate (i.e., pregnant, HIV-positive and other contagious diseases) for applicant to stay in Korea for a long time as a student, the acceptance to the program will be cancelled and the applicant will be asked to return to his or her country.

**2nd Check-Up:** Medical Check-up for student health during the program. If the medical check-up result shows that it is inadequate for applicant to stay in Korea for a long time as a student (i.e., pregnant, HIV-positive and other contagious diseases), the acceptance to the program will be cancelled and the applicant will be asked to return to his or her country.

The 2<sup>nd</sup> check-up will be conducted 6 months before student's return to his or her country.

If the student wants additional check-ups, the check-up fees will be borne by the student.

#### **2) Insurance**

UOS provides participants with medical insurance either through National Health Insurance Program or Private Medical Insurance.

##### **National Health Insurance Program**

The National Health Insurance Corporation (<http://www.nhic.or.kr/portal/site/eng>) provides health insurance for foreign students. The insurance is designed for overseas Koreans and foreigners who stay in Korea for more than a year. Foreign students, their spouses and their children under 20 are eligible for the insurance. To apply, the student must submit a copy of his/her alien registration card and verification of his/her purpose of stay at an office of the Corporation.

English call center service is available for foreign students at 02-390-2000.

**Private Medical Insurance**

With a medical insurance provided by a private insurance company, students can get treatment from clinics or hospitals and pay with their own money first, in case of injury or illness. Then, they can apply for reimbursement. The insurance will cover accidental death and disability, accidental medical reimbursement, sickness medical reimbursement, etc.

**3) Insurance Provided by the Institution**

The details of the private insurance provided by the institution will be introduced during the course orientation upon arrival.

**Part VII****REGULATIONS****1. PARTICIPANT'S RESPONSIBILITIES**

- Participants are required:
  - To abide by the rules of the academic institution
  - To take up the scholarship in the academic year for which it is offered (deferral is not allowed)
  - To reside in the accommodation designated by UOS for the duration of the course except for holidays or temporary leave
  - To maintain an appropriate study load and achieve satisfactory academic progress for the course. If the participant fails to attain certain grades required by UOS, his or her status as a MGLEP program participant may be suspended
  - To participate in all activities associated with the approved course of study including all lectures and tutorials, submit all work required for the course and sit for examinations unless approved otherwise by UOS in advance
  - To advise UOS of any personal or family circumstances such as health problems or family problems which may seriously affect their study
  - To refrain from engaging in political activities or any form of employment for profit or gain.
  - To agree to KEITI collecting information concerning them and passing that information onto other relevant parties, if necessary
  - To return to their home country upon completion of the program
  - Not to extend the length of the program or stay for personal convenience; neither KEITI nor UOS will provide any assistance and be responsible for an extension of their stay
  - To either return to their original job post or remain employed in a field related to their degree for at least 2 years.
- If the participants break any of the rules of either KEITI or UOS during their stay in Korea, their status as MGLEP program participant may be suspended or terminated.
- UOS may cancel the admission if a participant fails to take a medical check-up.

## 2. WITHDRAWALS

- In principle, a participant is not allowed to withdraw from the course at his or her own option once the course starts.
- A participant may withdraw with valid personal or other pressing issues from one's home country (such as health or work issues) when acceptable to KEITI-UOS.
- If a participant fails to attain certain grades required by UOS, he or she may be forced to withdraw and return home upon withdrawal.
- The participant who withdraws must return to UOS the living allowance he or she has already received for the remaining period from the date of departure from Korea.

## 3. TEMPORARY LEAVE

- In principle, participants are not allowed to take temporary leave during semester. In case of special circumstances e.g. his/her own marriage, death of family, participants can take temporary leave after they notify the university in advance. They should notify the Program Chair and the UOS office prior to the departure by submitting the "Request for a temporary leave" document. The e-ticket should also be submitted when issued.
- Those who want to take temporary leave during breaks should notify the Program Chair and the UOS office at least two weeks prior to the departure by submitting the "Request for a temporary leave" document and e-ticket.
- In case of traveling to other countries, they are additionally required to submit a traveler's insurance for the travel period.
- KEITI and UOS do not pay airfare for the trip. KEITI will not pay the living allowance for the absent days including departure date and arrival date.
- For the absent days, KRW33,300/day will be deducted from the full amount of monthly allowance(KRW999,000).
- If you have to temporary leave due to unavoidable reasons (ex, death of direct family members), your living allowance will be reduced by KRW33,300/day (including departure date and arrival date) and you can reimburse round-trip airfare with economy class.
- All expenses incurred for participant's temporary leave should be covered by the participant, not by the KEITI and the University of Seoul
- If the participant is found to have made an unreported temporary visit to his or her home country or traveled to other countries or made a trip without university's approval, his or her living allowance will be suspended (from the day of departure to the day of return), and UOS may impose a disciplinary action on them, including expulsion from UOS.

#### **4. ACCOMPANYING OR INVITING FAMILY**

- As MGLEP Program is quite an intensive program which requires students of full commitment to and concentrated endeavors for study, participants are advised not to bring any family members to Korea.
- Participants may bring or invite family members within a month to the fullest under the condition that the Program Chair approves the invitation in advance. However, they must be able to cover all the relevant expenses such as airfare, accommodation, living cost, visa fee, insurance, etc. of their family as well as be responsible for any administrative procedures required

#### **5. OTHERS**

- KEITI -UOS will assume responsibility only within the limit and scope of the insurance for participants.
- KEITI -UOS is not liable for any damage or loss of participant's personal property.
- KEITI -UOS will not assume any responsibility for illness, injury, or death of the participant arising from extracurricular activities, willful misconduct, or undisclosed pre-existing medical conditions.
- Participants are advised not to purchase or own personal vehicles due to safety concerns and concentration on their studies.

## 3. Policy on Misconduct

- Any form of harassment or insult, including but not limited to misconduct arising out of racial/ethnic, gender or class discrimination, whether it be physical or verbal, will not be tolerated and will be dealt with in accordance with the Korean law and KEITI Policy.
- Especially, sexual harassment, defined as a form of behavior characterized by sexually connotative words, acts or gestures that could undermine individual dignity and by which the victim takes offense, is regarded as a serious misconduct and will be dealt with accordingly.
- Any kind of disturbance to the efficient operation of the program, such as arbitrary action, including a breakaway from the scholarship program, immoderate drinking, and any other kind of irresponsible behavior, will not be tolerated, and the offender may be asked to leave in accordance with KEITI policy.
- Should damage be caused by any kind of incident of assault or misconduct, all participants are obliged to report the event to KEITI immediately.

## 4. Security and Well-being Policy

- Participants are responsible for their own personal belongings, safety, health and well-being, and are asked to conduct themselves accordingly.
  - Participants are served with the medical treatment covered by the insurance for accidents or diseases caused during the length of the participants' stay up to certain limits. Participants, however, should be solely responsible for the treatment that exceeds their medical coverage.
- (\*) The causes of pregnancy or the treatment of any kind of chronic disease are excluded from the insurance coverage.

## 5. General Rules

- Participants of the program should carry out instructions given to them and abide by the terms and conditions of both KEITI and the academic institution, including any subsequent revisions which may be stipulated by KEITI and the institution in regards to the program.
- Participants should reside in the accommodation designated by the academic institution for the duration of the course.
- Participants should not bring any family members (dependants) to Korea or the country of training.
- Participants shall refrain from engaging in political activities.
- Participants are liable for all liabilities, including claims, losses, demands, actions, suits, costs or expenses, arising in accordance with legal proceedings undertaken during the course of the training course, and of any damage whatsoever to any property that arises from the carelessness, negligence, omission or default of the participants during the training course.
