

F.N. 8/9/RDC-1/2019/250

Date: 13/02/2020

Sub:- Nomination request for the training cum stakeholders workshop on "Application of water Accounting plus (WA+) Tool for the Water Resources management-Subarnarekha Basin" at NIH Roorkee during 2nd to 6th March 2020 under National Hydrology Project- Reg.

National Institute of Hydrology (NIH) Roorkee is organizing a 5 days training cum stakeholders workshop on "Application of water Accounting plus (WA+) Tool for the Water Resources management-Subarnarekha Basin" at NIH Roorkee during 2nd to 6th March 2020 under National Hydrology Project as per details given below.

Sl. No.	Name of Training	Venue	Period of training
1.	Application of water Accounting plus (WA+) Tool for the Water Resources management-Subarnarekha Basin	NIH Roorkee	2 nd to 6 th March 2020

The nomination in respect of Training programme mentioned above may please be sent to Director, Training after approval of concerned Member (D&R/WP&P) directly before 23.02.2020 for obtaining the approval of the Chairman, CWC.

The officers under RM Wing may send the nomination to this office for obtaining the approval of Member (RM), CWC before 23.02.2020.

The nominated officers requested to enter his/her details on <http://nhp.mowr.gov.in/training/SearchProfile.aspx>

Dr. A. K. Lohani

Scientist G & Training Coordinator NHP

No. NHP/T/2020-NIH

Dated: Feb 10, 2020

To: All Nodal Officers / Training Coordinators

Sub: Organization of a 5-Days Training cum stakeholders' workshop on Application of WA+ Tool for Water Resources Management-Subarnarekha Basin (March 02-06, 2020) at NIH, Roorkee under NHP.

Dear Sir,

In recent years, Water Accounting Plus (WA+) has emerged as a key approach to understand water scarcity and identifying gaps and in-efficiencies in water resources management at the basin scale. Keeping this in view, NIH, Roorkee is organizing a 5 days training cum stakeholders' workshop on Application of WA+ Tool for Water Resources Management-Subarnarekha Basin during March 02-06, 2020 at NIH, Roorkee under National Hydrology Project as part of the NHP training activities.

The aim of this training cum stakeholders' workshop is to make familiar the participants with WA+ technique and how best can we effectively utilize it to address the water management issues at basin scale. During this training, the participants will work on the following:

- Downloading and process of various satellite data products using pre-developed tools
- Application of WA+ Framework to understand the spatial and temporal variations in water consumptions and productivities

There is no registration fee for the participants from the States/ Central Agencies covered under NHP to attend the workshop. However, participants shall have to bear expenses on travel. The TA/DA of the participants would have to be borne by their respective organizations. The accommodation for the participants of the Training Workshop shall be arranged in NIH Guest Houses. I request you to nominate maximum 2-3 participants for attending this 5-days Training Workshop.

For further details about the training course, please contact to:

Dr. P. K. Singh,
Scientist D; WRS Division,
