

# Water Conservation Practices

## Krishna Godavari Bhawan, CWC, Hyderabad

**Roof Top Rain Water Harvesting:** This is a key to country's water resources sustainability. In order to ensure water conservation and minimal wastage, various measures viz., RWH, Benching/underpinned walls, channelizing surface runoff, Roof top rain water collection system have been integrated in KGBO office building, Hyderabad.

### Rainwater Harvesting System in K.G.Bhawan

**Slab area : 1577.8 sq m**  
**Average Rainfall : 800 mm**  
**Water harvested : 10 lakh litres (approx)**
