Subject: **World Water Day Pledge** on 22nd March 2021- reg.

Sir,

As you are aware, 'Water' is at the core of sustainable development and is critical for socio-economic development, energy and food production, healthy ecosystems and for human survival itself. As the global population grows, there is an increasing need to conserve water so that communities have enough for their needs. Water is our most precious resource – we must use it more responsibly. We must balance all of society's water needs while ensuring that the poorest people may also get pure and quality water adequately.

2. World Water Day, on 22nd March every year, is observed to focus attention on the importance of water. The theme for the year 2021 'Valuing Water' focuses on raising awareness of the global water crisis and core focus is to support the achievement of Sustainable Development Goal (SDG) 6: Water and Sanitation for all by 2030.

3. It is requested to administer a Pledge to all officials in your office/ organisation on the occasion of World Water Day this year on 22nd March 2021 to sensitize them about the importance of water and their role in Management and Conservation of Water (**A copy of the Pledge is enclosed**). It is requested that 3-4 good quality photographs of the Pledge taking ceremony with location may be shared on email ids: media-mowr@nic.in, sap-dowr@gov.in for our record and publicity and also be uploaded on the Swachhta Samiksha portal of D/o Drinking Water and Sanitation.

Encl: As above.

Yours faithfully,
